Collection STEM For Kids:

The Collected Works Volume One Malcolm Bradbury, 2018-08-07 Three satires of academia by the beloved British critic teacher and novelist including his outstanding comic masterpiece *The History Man* *The Guardian* A satirist of great assurance and accomplishment Malcolm Bradbury remains one of the sharpest comic novelists of the twentieth century *The Observer* In *Rates of Exchange* and *Stepping Westward* as in almost all of Bradbury's novels the most frequently recurring theme is that of the slightly naive liberal innocent usually an academic hilariously abroad in an unfamiliar and occasionally slightly threatening context *The Guardian* In *The History Man* the tables are turned and the professor himself is the threat resulting in grim wit chill comedy and a fictional energy which is as imaginative as the tale is shocking A S Byatt *Rates of Exchange* University lecturer and seasoned international traveler Angus Petworth is unprepared for the oddities of culture and circumstance that await him on the other side of the iron curtain in the eastern European nation of Slaka In two eventful weeks the professor gives an incendiary interview is seduced by a femme fatale and becomes embroiled in a plot of international intrigue Satirizing everything from critics and diplomats to Marxism and academia *Rates of Exchange* is a witty and lighthearted novel of cultural interchange at the height of the Cold War shortlisted for the Man Booker Prize Explosively funny *The Daily Telegraph* *The History Man* Bradbury's classic skewering of 1970s academia and ideological hypocrisy centers around Professor Howard Kirk who prides himself on being the most highly evolved teacher on campus But beneath Kirk's scholarly bohemianism and studied cool is a ruthless self-serving Machiavellian streak Kirk is vain and bigoted dismissing female students and colleagues while releasing vitriol against those who contradict him particularly his clever wayward wife Barbara the long suffering mother of his two children Someone needs to teach him a lesson A genuinely comic novel *The New York Times* *Stepping Westward* At the height of the swinging sixties mediocre British writer James Walker accepts an academic post in America for a year he'll never forget As Benedict Arnold University's writer in residence he finds himself something of a celebrity his work though met with shrugs at home is the subject of vibrant scholarly criticism among American academics But the buttoned up professor is about to take a crash course in culture shock taught by spirited advocates of free love and aggressively ambitious colleagues Highly entertaining *Margaret Drabble* *The Sunday Times*

Coding for Children and Young Adults in Libraries Wendy Harrop, 2018-07-15 *Coding for Children and Young Adults in Libraries* is an all inclusive guide to teaching coding in libraries to very young learners as young as 4 or 5 years old This book will provide all librarians whether they are brand new to the idea of coding or fairly experienced with it with both the foundation to understand coding and tools they can use The book features lessons ideas and information about the newest and the best coding tools and templates for creating coding clubs and classes It also provides options for all technology environments for those libraries with very few devices available to those with many to choose from Readers will both learn the essentials for teaching coding to young kids as well as how to organize coding programming in the library This book

takes an in depth look at what tools are available both high tech and low to help kids learn this important skill Whether you re novice or experienced in the world of coding this book will have what you need to set up library coding clubs help kids with game design and even program robots

Recent Advances and Perspectives on the Gastrointestinal Microbiota of Small Ruminants Anusorn Cherdthong,Einar Vargas-Bello-Pérez,Qing Zhang,Eric Altermann,Anil Kumar Puniya ,Raffaella Tudisco,2024-09-23 Ruminants are hooved mammals with a unique digestive system that allows them to better create energy from fibrous plant material than other herbivores Small ruminants such as sheep and goats play an important role in global food security and nutrition as well as in

the livelihoods of farmers and others along the food chain Due to the unique digestive systems of ruminants many major studies have focused on the effects of high concentrate diets on rumen fermentation ruminal acidosis and their microbial properties and functions Therefore paying attention to the intestinal health of small ruminants during the rapid fattening stage has important implications for their health and productivity Ruminants host a taxonomically diverse microbiota in their rumen which is generally considered to be the most efficient natural fermentation system Rumen microorganisms facilitate the degradation of otherwise indigestible plant fibres into absorbable compounds such as proteins and volatile fatty acids the main source of energy and nutrition for ruminants They are composed of a complex and dynamic assembly of bacteria fungi archaea protozoa and viruses Diets and additives directly affect the number and viability of rumen microorganisms
