Concept And Application Of Shariah For The Construction Industry: Shariah Compliance In Construction Contracts, Project Finance And Risk Management Khairuddin Abdul Rashid,Kiyoshi Kobayashi,Sharina Farihah Hasan,Masamitsu Onishi,2018-10-19 The application of Shariah compliance in business transactions continues to increase The Asian financial crisis of 1997 global financial crisis of 2007 2008 Enron scandal and other reported ills besieging conventional business transactions have led to advocates of Shariah compliant business transactions promoting the latter as a credible alternative However unlike the banking commerce and financial sectors the uptake by the construction sector was sluggish due to limited understanding of Shariah among the practitioners and policymakers compounded by the lack of research and publications on its application for the construction sector This book is intended for students researchers practitioners and policymakers of the construction industry as well as the related upstream and downstream activities It offers basic theories challenges current practices and proposes innovative ideas on Shariah compliance and its application for the construction industry Related Link s

Construction Law William Allensworth,Ross J. Altman,Allen L. Overcash,Carol J. Patterson,2019 The first edition of this book was published ten years ago to create a useful resource for the construction industry by assisting professors in familiarizing students with the principles of construction law As the editors started work on the second edition we wanted not only to update the book but to improve it as well While the overall organization of the book remains the same we made some changes that should make the book easier to use As was the case in the first edition of this book many of the discussions in the text and the questions at the end of each chapter focus on typical small commercial construction projects and the American Institute of Architects forms of agreement that are widely used on such projects This is consistent with our intent to familiarize readers with a wide range of issues that arise on most construction projects

A Treatise on the Construction and Effect of Statute Law Henry Hardcastle,1901

Collaborative Relationships in Construction Hedley Smyth,Stephen Pryke,2009-01-28 The book collects the latest research on both contractual and conceptual collaborative practices in construction It identifies common problems faced by the industry and draws out practical implications Construction projects are increasingly run in ways that undermine the traditional boundary of the firm and sometimes also the definition of the project coalition This poses challenges for construction firms whose clients demand ever increasing performance improvements as well as those firms who want to improve their strategies for greater collaboration to give themselves competitive advantage The editors identify three main

themes collaborativerelationships operating both in frameworks and within networks ofcontacts e g relational contracting in partnering supply chainmanagement and other procurement driven initiatives The second theme is frameworks both contractual frameworksbinding parties together over a series of contracts and conceptualframeworks used to develop future performance improvement arisingfrom the proactive strategies of firms The third theme is the network of relationships that supportsindividuals and firms within the project coalition in deliveringservices and adding value to improve performance These networksdefine the investment and incentives supporting the inter firm andintra firm relationships as well as the formal contractualconditions through which such incentives flow Networks ofinformation exchange define the structure of the activity and helppredict organisational configurations for successful projectoutcomes
