A Theory of Foreign Policy Glenn Palmer, T. Clifton Morgan, 2011-10-30 This book presents a general explanation of how states develop their foreign policy The theory stands in contrast to most approaches which assume that states want to maximize security by assuming that states pursue two things or goods through their foreign policy change and maintenance States in other words try both to change aspects of the international status quo that they don't like and maintain those aspects they do like A state's ability to do so is largely a function of its relative capability and since national capability is finite a state must make trade offs between policies designed to achieve change or maintenance Glenn Palmer and Clifton Morgan apply their theory to cases ranging from American foreign policy since World War II to Chinese foreign policy since 1949 to the Suez Canal Crisis The many implications bear upon specific policies such as conflict initiation foreign aid allocation military spending and alliance formation Particularly useful are the implications for foreign policy substitutability The authors also undertake statistical analyses of a wide range of behaviors and these generally support the theory A Theory of Foreign Policy represents a major advance over traditional analyses of international relations Not only do its empirical implications speak to a broader range of policies but more importantly the book illuminates the trade offs decision makers face in selecting among policies to maximize utility given a state's goals

Australian National Bibliography, 1990 **Portrait of the Artist and His Mother in Twentieth-Century Italian Culture** Daniela Bini, 2020-11-05 The power exercised by the mother on the son in Mediterranean cultures has been amply studied Italy is a special case in the Modern Era and the phenomenon of Mammismo italiano is indeed well known Scholars have traced this obsession with the mother figure to the Catholic cult of the Virgin Mary but in fact it is more ancient What has not been adequately addressed however is how Mammismo italiano has been manifested in complex ways in various modern artistic forms Portrait of the Artist and His Mother in Twentieth Century Italian Culture focuses on case studies of

five prominent creative personalities representing different sometimes overlapping artistic genres Luigi Pirandello Pier Paolo Pasolini Dino Buzzati Carlo Levi Federico Fellini The author examines how the mother son relationship not only affected but actually shaped their work Although the analysis uses mainly a psychological and psychoanalytical critical approach the belief of the author substantiated by historians anthropologists and sociologists is that historical and cultural conditions contributed to and reinforced the Italian character This book concludes with an analysis of some examples of Italian film comedies such as Fellini s and Monicelli s where mammismo vitellonismo is treated with a lighter tone and a pointed self irony
