The Journal of the National Education Association National Education Association of the United States,1930 *Journal of the National Education Association* ,1930 *The Science of Reading* Adrian Johns,2023-04-05 For the first time the story of how and why we have plumbed the mysteries of reading and why it matters today Reading is perhaps the essential practice of modern civilization For centuries it has been seen as key to both personal fulfillment and social progress and millions today depend on it to participate fully in our society Yet at its heart reading is a surprisingly elusive practice This book tells for the first time the story of how American scientists and others have sought to understand reading and by understanding it to improve how people do it Starting around 1900 researchers convinced of the urgent need to comprehend a practice central to industrial democracy began to devise instruments and experiments to investigate what happened to people when they read They traced how a good reader s eyes moved across a page of printed characters and they asked how

their mind apprehended meanings as they did so In schools across the country millions of Americans learned to read through the application of this science of reading At the same time workers fanned out across the land to extend the science of reading into the social realm mapping the very geography of information for the first time Their pioneering efforts revealed that the nation s most pressing problems were rooted in drastic informational inequities between North and South city and country and white and Black and they suggested ways to tackle those problems Today much of how we experience our information society reflects the influence of these enterprises This book explains both how the science of reading shaped our age and why with so called reading wars still plaguing schools across the nation it remains bitterly contested

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
