**Ton Up!** Paul d'Orleans, 2019-12-17 *Ton Up A Century of Caf Racer Speed and Style* focuses on the story of the ton up boys and their caf racers. But it's much more than just that. Illustrated with historic and modern photos and featuring a text by one of the world's motorcycle historians, it's really the story of motorcycle speed and style evolved from the early 1900s right through today. Cafe racers are most associated with the young rebellious rock and rollers of 1960s Britain. These riders created the quintessential caf racers: fast motorcycles customized to resemble the racing bikes of the period. They were called caf racers because their riders raced on public roads from one caf to the next. The goal was to do the ton: exceed 100 miles per hour on these runs, which led to their designation as ton up boys. Today, ton up culture is more popular than ever and recognized worldwide with a following of young and long-time riders alike. With *Ton Up*, enjoy a scenic ride through the history of this vibrant scene.

*Cafe Racers* Michael Lichter, Paul d'Orleans, 2014-06-15. In *Cafe Racers*, master photographer Michael Lichter and motorcycle culture expert Paul d'Orleans visually trace caf racer motorcycles from their origins in the mid-twentieth century all the way into modern times.

[How to Build a Café Racer](#) Doug Mitchel, 2013. What's old is new again, and the newest trend on the block is Cafe Racers. Written by well-known motorcycle and automotive author Doug Mitchel, *How to Build a Caf Racer* starts with a history lesson. While those first bikes were built in the UK for racing from cafe to cafe, the current rage for Cafe Racers has definitely spread to the US. Converting a stock motorcycle to a Cafe Racer requires more than a fairing and a few decals. The book starts with chapters on planning and choosing an appropriate bike, followed by chapters that detail the modifications that will likely be embraced by anyone converting a stocker to a rocker. From shocks and tires to engine modifications, Doug's book lays out each type of modification and how it's best carried through. The center of the book holds a gallery of finished bikes. These are not just Triumphs or Nortons, but nearly every brand imaginable from Japan, Italy, the UK, and Germany. The final chapters include two start-to-finish cafe builds. This is the chance for the reader to see how professional shops take a stock Honda, Triumph, or Ducati and convert it into a fast, sexy, and functional Cafe Racer, ready to race from cafe to cafe on Saturday night or around the race track on Sunday afternoon.

**British Cafe Racers** Uli Cloesen, 2016-10-15. Plenty of books have been published about British bikes and their glorious motorcycling racing heritage, but until now, none has solely focused on the rich variety of British caf racers, a genre created in 1950s Britain by the ton up boys. Style, speed, and passion combine for an eclectic journey into the world of the British cafe racer. Uli Cloesen's latest book, the first dedicated to the British cafe racer scene, is a celebration of all things fast from Britain: a definitive overview of the cased British motorcycle, from single-cylinder to four-cylinder variants, and going well beyond the parallel-Triton twin. Featuring a truly stunning variety of British motorcycle engine-based cafe racers from the UK and beyond, and complemented by owners' stories and technical descriptions, this book presents the eye candy of the British cafe racer world. Come and see the cased side of Britain.
