**A Guide to Business Studies** Paras Mahabaly,2008      **The Mathematics Education for the Future Project - Proceedings of the 14th International Conference** Alan Rogerson,Janina Morska,2017-07-01 This volume contains the papers presented at the International Conference on Challenges in Mathematics Education for the Next Decade held from September 10 15 2017 in Balatonf red Hungary The Conference was organized by The Mathematics Education for the Future Project an international edu cational project founded in 1986      **The Global Testing Culture** William C. Smith,2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences      *Business Studies* ,      *Ecotheology* Levente Hufnagel,2023-01-11 *Ecotheology Sustainability and Religions of the World* gives a very interesting overview of the frontiers of scientific research in this important multi and transdisciplinary area Its chapters use ecotheological approaches to discuss the multiple aspects of an environmental crisis from almost every segment of our planet This book will be very useful for everyone researchers teachers students or others interested in the field who would like to gain some insights into this aspect of our culture      *Focus* ,2001      **Innovative Technologies and Learning** Yueh-Min Huang,Chin-Feng Lai,Tânia Rocha,2021-11-23 This

book constitutes the refereed proceedings of the 4th International Conference on Innovative Technologies and Learning ICITL 2021 held in November December 2021 Due to COVID 19 pandemic the conference was held virtually The 59 full papers presented together with 2 short papers were carefully reviewed and selected from 110 submissions The papers are organized in the following topical sections Artificial Intelligence in Education Augmented Virtual and Mixed Reality in Education Computational Thinking in Education Design Framework and Model for Innovative learning Education Practice Issues and Trends Educational Gamification and Game based Learning Innovative Technologies and Pedagogies Enhanced Learning Multimedia Technology Enhanced Learning Online Course and Web Based Environment and Science Technology Engineering Arts and Design and Mathematics *Business Research* Pieter W. Buys,Merwe Oberholzer,2023-03-14 This book focuses on research methodologies that apply to business research particularly for researchers and managers embarking thereon to support managerial decision making in the industry In doing so the book s objective is to guide business researchers in identifying defining and applying rigorous academic methodologies that will enable them to formulate design and execute effective research that answers their specific management problems Such guidance can empower organizational managers to understand that business research can contribute to practical solutions to actual problems experienced in the industry In addition by emphasizing the integrative nature between 1 academic research and 2 experienced industry problems it becomes possible to foster an awareness of such research s potential impact on organizational performance management sustainability and resilience With that attention is given to narrowing the gap between theory and practice which requires that fundamentals of scientific research be adhered to while maintaining the delicate balance between a practice friendly guide to pragmatically sound and academically rigorous business research

**Educational Assessment in a Time of Reform** Coert Loock,Vanessa Scherman,2019-11-20 Educational Assessment in a Time of Reform provides background information on large scale examination systems more generally and the South African examination specifically It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours At the heart of the book is the debate on whether the current standard of education in Africa is good enough If not then how can it be improved The aim of this book is to provide a point of departure for discussions on standard setting quality assurance equating of examinations and assessment approaches From this point of departure recommendations for practices in general and the exit level Grade 12 examination results in particular can be made This book is ideal reading for principals teachers academics and researchers in the fields of educational assessment measurement and evaluation *South Africa Survey* ,2009

**Settling for Less** Michael Cosser,Jacques Du Toit,Mariette Visser,2004 This study gives statistical and evidential illustration to what influences student choices and behavioral patterns as well as trends in the youth market in South Africa

**Commercial Directory** ,2000 **Drum** ,2008 Teaching and Learning in South African Schools Pierre Du

Plessis, Lloyd Nolan Conley, Elize Du Plessis, 2007 Teaching and learning in South African schools offers sound detailed and practical direction to help new and experienced educators and student educators move with ease within the framework of teaching and learning

**Assessing Academic Literacy in a Multilingual Society** Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience
