## Friendship And The Moral Life:

**Friendship and the Moral Life** Paul J. Wadell C.P., 1990-11-30 Friendship and the Moral Life is not simply a theoretical argument about how moral theology might be done if it took friendship more seriously Rather the book exhibits how without friendship our lives are morally not worth living The book begins with a consideration of why a new model of the moral life is needed Wadell then examines the ethics of Aristotle who viewed the moral life as based on a specific understanding of the purpose of being human with friendship being an important factor in enabling people to acquire virtues necessary for achieving this purpose Through the thought of Augustine Aelred of Reivaulx and Karl Barth the question is raised whether friendship is at odds with Christian love or whether their relation depends on one's narrative account of friendship Thomas Aquinas understanding of charity as friendship with God is examined to clarify this relationship By locating friendship within the story of God's redemption through Christ Wadell helps us see why friendship properly understood is integral to the Christian life and not at odds with it Such a friendship draws us to love all others who seek God and teaches us not to restrict our concern to a special few in preferential love The book closes by investigating how friendship as a model for the moral life might work in everyday life

**The Word Before the Powers** Charles L. Campbell, 2002-01-01 In this examination of the ethical significance of preaching Charles Campbell provides both fresh insights into the relationship between preaching and ethics and a challenging moral vision for the contemporary church Moving beyond a narrow focus on moral decision making or social issues sermons Campbell argues that a particular ethic nonviolent resistance is inherent in the practice of preaching and shapes the moral life of the church In the face of the powers the fundamental ethical task of preaching involves building up the church as a community of resistance Employing three dimensions of character ethics vision practices and virtues Campbell demonstrates the concrete ways in which preachers may undertake this task

**Friendship** Michael H. Mitias, 2012-01-01 Friendship was recognized as a central moral value in the classical period but it was dismissed from medieval modern and twentieth century moral theories This book argues that this dismissal is unjustifiable The validity of this claim is established in four steps First it proposes the concept of moral paradigm This concept enables us to explore the source of moral value and to provide a criterion for the evaluation of the adequacy of moral theory Second the book explains why medieval modern and twentieth century moral theorists neglected friendship as a central moral value in their analysis of moral behavior and why this neglect was unjustifiable Third it explains why the classical moral philosophers viewed friendship as a central moral value Fourth it argues that friendship is an ontological need therefore a necessary condition of the moral life This need is implicitly recognized in the moral paradigms that underlie the moral theories of the medieval modern and twentieth century moral theories Accordingly it cannot be neglected in the process of moral theorizing

**Christians among the Virtues** Stanley Hauerwas,Charles Pinches,2022-12-06 Christians among the Virtues investigates the distinctiveness of virtues as illuminated by Christian practice using a discussion of Aristotle s ethics together with the work of significant contemporary scholars such as Alasdair MacIntyre and Martha Nussbaum Hauerwas and Pinches converse with learn from and also critically engage powerful and explicitly non Christian accounts of virtues and then form a specifically Christian account of certain key virtues including obedience hope courage and patience This book will deepen the current public debate about virtue by showing how different traditions and practices yield distinctive understandings of the virtues and by articulating the particularity of virtues informed by Christian practice Hauerwas and Pinches begin with a discussion of Aristotle s account of happiness virtue and friendship and explore how the temporal character of life threatens the possibility of being virtuous The authors then contrast this idea with the Christian recognition of our temporal limitations as a call to virtue rather than a threat In the second section the authors address a work by John Casey which attempts to present an account of the virtues purged of their Christian heritage This analysis as well as the critical readings of MacIntyre and Nussbaum will be of particular interest to philosophers and theologians alike The authors bring a theological voice to the popular and philosophical debates about virtue While the work encourages Christians to think about what is unique to Christian virtue its specificity does not limit its applicability but opens up and deepens the debate over the particular interpretations of virtues calling on others to present more specific articulations of what it means to be courageous obedient hopeful and patient and to contrast those accounts with the Christian interpretations presented by the authors In this respect Christians among the Virtues is the first work in what could be called the second stage of the recovery of the virtues the work of understanding the difference among interpretations of the virtues in the light of different practices and traditions
