Up from Slavery; an Unfinished Journey Archie Morris III D.P.A.,2019-03-21 For a period of eighty five years the M Street Dunbar High School was an academically elite all black public high school in Washington DC As far back as 1899 its students came in first in citywide tests given in both black and white schools Over this eighty five year span approximately 80 percent of M Street Dunbar s graduates went on to college even though most Americans white or black did not attend college at all Faculty and students were mutually respectful to one another and disruptions in the classroom were not tolerated Yet in this era of best practices this public high school has received virtually no attention in the literature or in policy considerations for inner city education The Dunbar High School today with its new building and athletic facilities is just another ghetto school with abysmal standards and low test score results despite the District of Columbia s record of having some of the country s highest levels of money spent per pupil The purpose of this study is to explore the history of a high school that was successful in teaching black children from low income families and to determine if the learning model employed there could be successful in a modern inner city public education environment

American Crusade Benjamin J. Wetzel,2022-06-15 When is a war a holy crusade And when does theology cause Christians to condemn violence In *American Crusade* Benjamin Wetzel argues that the Civil War the Spanish American War and World War I shared a cultural meaning for white Protestant ministers in the United States who considered each conflict to be a modern day crusade *American Crusade* examines the holy war mentality prevalent between 1860 and 1920 juxtaposing mainline Protestant support for these wars with more hesitant religious voices Catholics German speaking Lutherans and African American Methodists The specific theologies and social locations of these more marginal denominations made their ministries highly critical of the crusading mentality Religious understandings of the nation both in support of and opposed to armed conflict played a major role in such ideological contestation Wetzel s book questions traditional periodizations and suggests that these three wars should be understood as a unit Grappling with the views of America s religious leaders supplemented by those of ordinary people *American Crusade* provides a fresh way of understanding the three major American wars of the late nineteenth and early twentieth centuries

through Struggle Carolynne Hitter Brown,2025-04-21 Singing through Struggle Music Worship and Identity in Postemancipation Black Churches offers an innovative look at the vital role music and worship played in nurturing Black citizenship and identity during the Reconstruction era In such border cities as Baltimore Washington DC and Philadelphia the church was where newly emancipated migrants and members of the free Black community merged identities priorities and experiences through a process of cultural negotiation Music as a sign of Black achievement and as a genuine expression of identity produced both bastions and battlegrounds in the fight for democracy The music of Black churchgoers singing together in sanctuaries as well as in homes schools and outdoors expressed resistance to uplift ideologies within and to white supremacy without Even while using hymns and music of the European sacred tradition members infused the songs they chose with new meanings relevant to their evolving concerns and situations Drawing on fresh archival sources Singing through Struggle sheds light on the unexplored gap in the study of African American religious music between slavery and the Great Migration demonstrating the continuous stream of Black creativity and dignity that existed in religious music making between gospel music and the spirituals This close up investigation of three Black congregations draws out previously forgotten stories of men and women who understood church music as key to shaping a collective purpose and civic identity

Their stories demonstrate how faith music and ritual gave the Black community means for exploring a deeply complex and ever changing reality

Death and Other Penalties Lisa Guenther, Scott Zeman, 2015-04-01 Mass incarceration is one of the most pressing ethical and political issues of our time In this volume philosophers join activists and those incarcerated on death row to grapple with contemporary U S punishment practices and draw out critiques around questions of power identity justice and ethical responsibility This work takes shape against a backdrop of disturbing trends The United States incarcerates more of its own citizens than any other country in the world A disproportionate number of these prisoners are people of color and today a black man has a greater chance of going to prison than to college The United States is the only Western democracy to retain the death penalty even after decades of scholarship statistics and even legal decisions have depicted a deeply flawed system structured by racism and class oppression Motivated by a conviction that mass incarceration and state execution are among the most important ethical and political problems of our time the contributors to this volume come together from a diverse range of backgrounds to analyze critique and envision alternatives to the injustices of the U S prison system with recourse to deconstruction phenomenology critical race theory feminism queer theory and disability studies They engage with the hyper incarceration of people of color the incomplete abolition of slavery the exploitation of prisoners as workers and as raw material for the prison industrial complex the intensive confinement of prisoners in supermax units and the complexities of capital punishment in an age of abolition The resulting collection contributes to a growing intellectual and political resistance to the apparent inevitability of incarceration and state execution as responses to crime and to social inequalities It addresses both philosophers and activists who seek intellectual resources to contest the injustices of punishment in the United States
