The Journal of the Bihar Research Society Bihar Research Society, 1915 *Sanaatana Dharma Facts Handbook* S.R. Subramanya, 2023-06-21 This is a Facts Handbook containing over 3 000 questions and answers related to various aspects of Sanaatana Hindu Dharma The overall objective of this book is to provide a very high level and a quick overview of facts about different aspects of Hinduism for anyone who is curious and has a passion to know more about many things Thus this book aims to cover lots of breadth This book would be of interest use to a children who are inherently interested in aspects of Hindu Dharma b parents who do not have time to teach but are keen on their children learning about Hindu Dharma c children who attend weekend classes on Hindu religion and culture as supplement reading d teachers of Hindu cultural classes as material for quizzes e anyone who has an open mind and is curious to explore the vast treasures of knowledge

Journal , 1915 *Journal of the Bihar and Orissa Research Society* , 1928 **Siva's Brainchild** Brian Capleton, 2024-02-22 Hinduism is ancient Considered as one religion it is the oldest religion on Earth Modern scientific understanding in contrast is relatively very recent It is only in this very recent mode of understanding that we have come to understand the basic material structure of the human brain is that of a supremely complex network We don t find anything in the Hindu corpus that refers to this or to the modern scientific fact that our experience of self and world as human beings is a construct of the functioning of this supremely complex network And yet Hinduism itself contains expressed through a cultural fabric the representation of a supreme understanding through which the most fundamental fact of modern brain science comes into focus The point of Hinduism like that of any of the great religions is the discovery of God whether as Brahman or Krishna and not merely the provision of entertaining stories about our origins With this in mind this book contains a steep but fast shortcut into the core content behind the cultural fabric in such a way that is compatible with Western inquiry whilst giving full due regard to the profound and spiritual nature of the corpus It is all too easy to regard the pantheon of Hinduism as proof of its estrangement and disconnection from a religion such as Christianity which amongst the religions predominates in the West But such a judgement would be to overlook the one thing that all cultures and all religions have in common and on which they depend for their expression in the first place Which is none other than human brain function In these pages the deeper content of the Hindu corpus and the single most fundamental fact of modern neuroscience come together They are exposed together for anyone who is interested to show how in a very 21st century way as well as in an ancient Hindu way we are what Hinduism may might regard as iva s brainchild **Loving Stones** David L. Haberman, 2020-03-18 *Loving Stones* is a study of devotees conceptions of and worshipful interactions with Mount Govardhan a sacred mountain located in the Braj region of north central India that has for centuries been considered an embodied form of Krishna It is often said that worship of Mount Govardhan makes the impossible possible In this book David L Haberman examines the perplexing paradox of an infinite god embodied in finite form wherein each particular form is non

different from the unlimited He takes on the task of interpreting the worship of a mountain and its stones for a culture in which this practice is quite alien This challenge involves exploring the interpretive strategies that may explain what seems un-understandable and calls for theoretical considerations of incongruity inconceivability and other realms of the impossible This aspect of the book includes critical consideration of the place and history of the pejorative concept of idolatry and its twin anthropomorphism in the comparative study of religions Loving Stones uses the worship of Mount Govardhan as a site to explore ways in which scholars engaged in the difficult work of representing other cultures struggle to make the impossible possible
