Ruth Colker,2008-11-17 This book does not start from the premise that separate is inherently unequal Writing from an anti subordination perspective Professor Colker provides a framework for the courts and society to consider what programs or policies are most likely to lead to substantive equality for individuals with disabilities In some contexts she argues for more tolerance of disability specific programs and in other contexts she argues for more disability integrated programs Her highly practical investigation includes the topics of K 12 education higher education employment voting and provision of health care At the end of the book she applies this perspective to the racial arena arguing that school districts should be given latitude to implement more use of racial criteria to attain integrated schools because such environments are most likely to help attain substantive equality from an anti subordination perspective The book measures the attainment of equality not on the basis of worn out mantras but instead on the basis of substantive gains
