Collective Intelligence in Action Satnam Alag,2008-09-30 There s a great deal of wisdom in a crowd but how do you listen to a thousand people talking at once Identifying the wants needs and knowledge of internet users can be like listening to a mob In the Web 2 0 era leveraging the collective power of user contributions interactions and feedback is the key to market dominance A new category of powerful programming techniques lets you discover the patterns inter relationships and individual profiles the collective intelligence locked in the data people leave behind as they surf websites post blogs and interact with other users Collective Intelligence in Action is a hands on guidebook for implementing collective intelligence concepts using Java It is the first Java based book to emphasize the underlying algorithms and technical implementation of vital data gathering and mining techniques like analyzing trends discovering relationships and making predictions It provides a pragmatic approach to personalization by combining content based analysis with collaborative approaches This book is for Java developers implementing Collective Intelligence in real high use applications Following a running example in which you harvest and use information from blogs you learn to develop software that you can embed in your own applications The code

examples are immediately reusable and give the Java developer a working collective intelligence toolkit Along the way you work with a number of APIs and open source toolkits including text analysis and search using Lucene web crawling using Nutch and applying machine learning algorithms using WEKA and the Java Data Mining JDM standard Purchase of the print book comes with an offer of a free PDF ePub and Kindle eBook from Manning Also available is all code from the book
