An Anthropological Study of Spirits Christine S. VanPool, Todd L. VanPool, 2023-05-28 This book discusses the cultural importance of spirits what spirits want and how humans interact with them using examples from around the world and through time Examples range from the vengeful spirits of the Zulu that cast lightning bolts from clear skies to punish wrongdoers to the benevolent Puebloan Kachina that encourage prosperity safety and rain in the arid American Southwest The case studies illustrate how humans seek to cooperate or counteract spirits to heal the physical and spiritual ailments of their people to divine the truth or to gain resources Building from their cross cultural analyses the authors further discuss how our physiology and psychology impact our interaction with the spirits Readers will come away with an appreciation of the beauty and power of the spirits that continue to shape the lives of people around the world *Traditional Ritual as Christian Worship* Burrows, William R., Shaw, R. Daniel, 2018-03-27 A necessary task of missionaries in recent decades has been to help local Christians inculturate or contextualize their faith although the criteria for doing so often came from outside the context in which new believers developed their understanding of Christianity Highlighting the voices of non Western scholars this work recognizes the importance of ritual and ceremony in the life of communities that seek to worship God in ways that reflect culturally appropriate responses to Scripture The contributors some of missiology s leading lights discuss rituals beliefs and practices of diverse peoples supporting the conclusion that orthodox Christianity is hybrid Christianity Steering Human Evolution Yehezkel Dror, 2020-05-07 Humanity must steer its evolution As human knowledge moves a step ahead of Darwin s theories this book presents the emergence of human made meta evolution shaping our alternative futures This novel process poses fateful challenges to humanity which require regulation of emerging science and technology which may endanger the future of our species However to do so successfully a novel humanity craft has to be developed main ideologies and institutions need redesign national sovereignty has to be limited a decisive global regime becomes essential some reevaluation of widely accepted norms becomes essential and a novel type of political leader based on merit in addition to public support is urgently needed Taking into account the strength of nationalism and vested interests it may well be that only catastrophes will teach humanity to metamorphose into a novel epoch without too high transition costs But initial steps such as United Nation reforms are urgent in order to contain calamities and may soon become feasible Being both interdisciplinary and based on personal experience of the author this book adds up to a novel paradigm on steering human evolution It will be of great interest to scholars and researchers of modern history evolution sciences future studies political science philosophy of action and science and technology It will also be of wide appeal to the general reader anxious about the future of life on Earth Comments on the Corona pandemic add to the book s concrete significance *Introduction to Religious Studies* Harvey J. Sindima, 2012-07-10 In *Introduction to Religious Studies* Harvey J Sindima provides an unconventional approach to the study of world religions Often books and courses on religious studies

focus on the major world religions This approach however frequently ignores other religious experiences such as those of various African groups as well as the indigenous people of the Americas and Australia These less widespread religions are commonly described in pejorative terms such as primitive religions or non literate religions Focusing solely on well known religions is an approach that impoverishes religious studies and deprives students of the enormous wealth of religious knowledge of the world Introduction to Religious Studies pulls together the diverse religious experience of Africans Native Americans and the indigenous peoples of Australia in order to provide a comprehensive introduction to the study of religion and broaden the horizons of religious studies students Under each theme or topic examples are drawn from religions of salvation as well as African and Native American religious traditions This book provides students with a deep wide and very rich introduction to religious studies
