surgical problems and 4 pediatric surgical oncology Chapters in Section 3 which represents half the book will follow a template of headings Historical Background Relevant Anatomy Epidemiology and Etiology Clinical Presentation Diagnosis Surgical Management and Postoperative Care The book will be moderately illustrated a few figures per chapter and does not aim to provide step by step skin to skin coverage of procedures It will provide succinct overviews along with clinical pearls and algorithms where appropriate

Paediatric Surgery, Second edition David Burge, Mervyn Griffiths, Henrik Steinbrecher, Robert Wheeler, 2005-11-25 The second edition of Paediatric Surgery has been designed to be highly relevant to the practice of clinical paediatric surgery With this in mind topics are presented in a clear and easily digestible format with the most important learning points in each area clearly identified The principles of the basic sciences and how these relate to compe

Historical Aspects of Pediatric Surgery P. P. Rickham, 2012-12-06 At first sight it may appear strange that a volume of Progress in Pediatric Surgery should be devoted to the history of our specialty One assumes that progress is concerned primarily with recent developments whilst history deals with matters of the past However in the past there has also been considerable progress in the development of our understand ing of paediatric surgical problems otherwise we would not have pro gressed to our present achievements The editors therefore do not apologize for compiling this volume but on the contrary feel that the publication of this volume is most timely Modern paediatric surgery has now been practised for three genera tions The handful of pioneers who were the founders of our specialty worked mainly before the last world war A few dozen of the inter mediary generation started work immediately after the war while the new generation who are now dominating our specialty must be counted in thousands Two factors have radically altered paediatric surgery as practised by the intermediary and the present generation of surgeons
