Conclusion – A typical summarisation of the points which have been outlined by the theorist and how they link to the question at hand in order to make the sure the answer doesn't go off topic.

Evaluation – This section comes in two parts. Firstly, introduce a small study or a theorist which backs up the aforementioned theorist (statistics as well). The theorist can too be praised for other factors such as relevance of study, influence of study, or research methods.

Secondly, the theory needs to be criticised. Firstly, either outline key criticism and 'holes' in the study that need to be addressed (the study might fail to address certain issues or it may be very dated). If possible, the research methods of the study should be criticised (TOP BAND). Another theorist/study should be brought in as a counter-argument.
