Thoth Ralph Ellis,1998      Thoth, Architect of the Universe Ralf Ellis,1997-01-14 What was the purpose of all the megalithic architecture that was created all around the world during the Stone Age Ralf has developed a theory that each of these structures represents a map of the world a map that may have been designed to pinpoint the location of the mythical Hall of Records There is no difficulty in seeing these maps at Stonehenge and Giza one just needs a little lateral thinking In fact a six year old is more likely to spot them than an adult Ralf also demonstrates how important the metrology of Giza was to the ancients In fact we still use these units today for the Great Pyramid measures 1760 cubits around the base and the Imperial Mile measures 1760 yards Thus America in particular is still using Egyptian metrology The Megalithic Map series Latest version v5 4 Stonehenge Avebury Silbury Henge Great Pyramid Giza Meidum Pyramid Precession      **Thoth** Ralph Ellis,2001 While researching the metrology of the megalithic monuments of Britain and Egypt Ellis made an important and previously unnoticed observation Many of the megalithic monuments of the world including Stonehenge and the Great Pyramid can be viewed as being maps of the earth These maps are verifiable as being designed in this fashion because they include within their structure the latitudes of specific topographical features on the surface of the earth The architect of these monuments was making maps the only thing now to be found is where the X marks the spot was placed The ancient monument builders were constructing technical messages for the future messages like the mathematical constant pi above Thoth Architect of the Universe has gone beyond this simple observation and found evidence of maps carved into the very fabric and design of these great megalithic monuments Structures like the great henge of Avebury are quite obvious in their cartographical design others like the Great Pyramid of Giza are less obvious Nevertheless all of these monuments can be seen to be maps of our Earth maps that date from the Neolithic age      *Thoth* Ralph Ellis,1997      **Thoth, Architect of the Universe** Ralf Ellis,1997-11-01 New revised and expanded 2015 edition Megalithic Maps What was the purpose of all the megalithic architecture that was created all around the world during the Stone Age Ralf has developed a theory that each of these structures represents a map of the world a map that may have been designed to pinpoint the location of the mythical Hall of Records There is no difficulty in seeing these maps at Stonehenge and Giza one just needs a little lateral thinking In fact a six year old is more likely to spot them than an adult Ralf also demonstrates how important the metrology of Giza was to the ancients In fact we still use these units today for the Great Pyramid measures 1760 cubits around the base and the Imperial Mile measures 1760 yards Thus America in particular is still using Egyptian metrology Followed by K2 Quest of the Gods v5 4      **Guardians of the Holy Grail** Mark Amaru Pinkham,2004 Presenting the ancient Holy Grail lineage from Asia and how the Knights Templar were initiated into it this book reveals how ancient Asian wisdom became the foundation for the Holy Grail legend      **The Return of the Serpents of Wisdom** Mark Amaru Pinkham,1997-09 According to ancient records the patriarchs and founders of the early civilisations in Egypt India China Peru Mesopotamia Britain and the
