Problem

Ravers are people that actively attend Electronic Dance Music (EDM) Concerts AKA "techno concerts" or "raves". Ravers enjoy the electronic music played at these concerts and are influenced by the culture of electronic music genres. Ravers want unique and customized products that will make them stand out from others. They also want them for specific dates, usually the date of the next concert they are attending. These products are often rare so there are only a few suppliers. Many companies that do offer them do not offer a variety of different products, have poor customer service and a lack of customization. Also many of these companies are located outside the US, and they can take quite some time to ship out orders. Ravers often require their products by the date of their next concert. This is a big shortfall to ordering from overseas and from multiple companies.

Products

Rave-Nation.com offers rare and customizable products in one place. Ravers can find nearly everything they need for their next event at one website instead of multiple websites. Our customization allows customers to purchase just part of an outfit instead of the whole thing, make requests for specialized clothing, and provide custom options and additions to many products, such as adding spikes, extra lenses, and extra decals to goggles. Rave-Nation has two product types: **Apparel** – Clubwear and items not generally seen in everyday society such as Cyber falls, and Fluffy boot covers. **Accessories** – Products used at a rave, such as Glowsticks, LED Glowsticks, and LED Hula Hoops.

Customer

Ravers can be defined as anyone that enjoys Electronic Dance Music (EDM) and frequently goes to EDM Concerts. These individuals want to be seen as unique and they express this uniqueness at raves through clothing and accessories. The majority of ravers are between the ages of 18 and 25, many of which are collegestudents. Three main types of ravers: **Kandi Ravers**- Dress in lots of colors and wear a lot of fur. They also wear beaded jewelry, and enjoy fast paced music. **Gogo Girls**- Typically paid dancers that work in groups with similar outfits of fluffies, clubwear, and hosiery. **Cyber Ravers** – Wear black clothes with bright colors. Interested in LED gas masks, LED goggles, and UFO pants.

Market

Market Size: Actual market size is hard to determine. The largest EDM Concerts and festivals have attendances between 100k and 200k people. Below are estimates on the size of the largest Dance Parties in the US. Some of the below events happen multiple times in one year. The CEO of Insomniac Events, the promotion company in charge of the Electric Daisy Carnival stated: "We're doing 16 festivals in 2012," (Amter, 2011). Again it is hard to find list style statistics, but there are tens of DJs that have the ability to attract tens of thousands ravers with their name alone. These events are occurring every weekend and many weekdays of the year, across the entire US. The bigger events with attendances in the 100 thousands, happen frequently as well. Six of these largest events are listed below but this is not a complete list of 100 thousand + person events.

Electric Daisy Carnival – 140,000 (Wake, 2012)

Ultra Music Festival – 150,000 (Wake, 2012)

Developing bankable business plans Boscolo, M., Lehtonen, P., Pra, A.,2021-04-28 This guide was developed to improve the capacity of small producers their organizations and small and medium sized enterprises to access private investment and finance for sustainable forest based businesses It offers a framework to think through organize and develop a convincing investment proposal The guide introduces ten key elements presented as modules which should be included in any bankable business plan Templates tips and advice also provide users with a structured way to think through and substantiate information related to each of these elements The goal is to increase the business attractiveness to funding sources and thus facilitate access to finance The guide is especially aimed at those producer organizations and companies that seek to scale up operations and need the know how to do it themselves *Enterprise, Business-Process and Information Systems Modeling* Jens Gulden,Iris Reinhartz-Berger,Rainer Schmidt,Sérgio Guerreiro,Wided Guédria,Palash Bera,2018-06-04 This book constitutes the proceedings of two events held at the CAiSE conference and relating to the areas of enterprise business process and information systems modeling The 19th International Conference on Business Process Modeling Development and Support BPMDS 2018 and the 23rd International Conference on Evaluation and Modeling Methods for Systems Analysis and Development EMMSAD 2018 The conferences took place in Tallinn Estonia in June 2018 The 13 papers accepted for BPMDS were carefully reviewed and selected from 29 submissions for EMMSAD 6 papers out of 13 submissions were accepted for publication For BPMDS 2018 the papers were organized in topical sections as follows context awareness in business processes automatic analysis of business processes advanced approaches for business process modeling evaluation of business process modeling techniques an experience report on modeling collaborative processes For EMMSAD 2018 the six related papers are listed without further sections **Developing New Products and Services** Lawrence Sanders,2011-10-14 This book will focus on the up front activities required for product and service differentiation the learning methodologies that contribute to arriving at that differentiation and the role that technology plays in implementing the process The book will show how technology factors into such entrepreneurial activities as engaging in business planning and utilizing creativity and innovation and how creative innovation in turn is achieved and enhanced through an understanding of two different modes of learning learning about and learning by doing A successful product introduction depends on an efficient supply chain a strong brand and the ability of a manufacturer or provider to differentiate it successfully in the marketplace New Product and Services Development demonstrates how differentiation this last critical component can be secured by the strategic use of technology and by engaging in two key learning methodologies E-Business and Virtual Enterprises Luis M. Camarinha-Matos,Hamideh Afsarmanesh,Ricardo J. Rabelo,2013-06-29 The fast progress in computer networks and their wide availability complemented with on one hand the explosion of the mobile computing and on the other hand the trends in the direction of ubiquitous computing act as powerful enablers for new forms

of highly dynamic collaborative organizations and emergence of new business practices The first efforts in virtual enterprises VE were strongly constrained by the need to design and develop horizontal infrastructures aimed at supporting the basic collaboration needs of consortia of enterprises Even pilot projects that were focused on specific business domains were forced to first develop some basic infrastructures before being able to develop their specific business models Nowadays although there is still a need to consolidate and standardize the horizontal infrastructures the focus is more and more directed to the development of new vertical business models and the corresponding support tools At the same time in the earlier R D projects the attention was almost exclusively devoted to the operation phase of the VE life cycle while now there are more activities addressing the creation phase developing mechanisms to support the rapid formation of new virtual organizations for new business opportunities In order to complete the life cycle there is a need to also invest on support for VE dissolution
