## Review Questions with Certified Solutions

1. What is the difference between a threat agent and a threat? -- **Correct!**

**Answer:** A threat agent is the local cause of an attack, whereas a threat is a category of objects, persons, or other entities that represents a potential danger to an asset. Threats are always present. Some threats manifest themselves in accidental occurrences and others are purposeful. For example, however, a fire that has begun in a building is an attack. If you are not in the fire then the accident is the threat agent. If you are in the building and it has started the fire, then that is the threat agent.

2. What is the difference between a vulnerability and exposure of? -- **Correct!**

**Answer:** A vulnerability is a weakness or an error in a system or procedure.
