Principles of Macroeconomics Dirk Mateer, Lee Coppock, 2023-01-02 Mateer and Coppock Make Economics for Everyone [Meaningful Economics](#) Bart J. Wilson, 2024 Economics has a problem the discipline cannot distinguish the causes of human action from the consequences of human action Economists deal with matters of fact not with feelings and morals They model representations of optimal agents not flesh and blood human beings in ordinary life By assuming that incentives and self interest are sufficient to explain economic

activity economic science proceeds as if the human mind does not matter But the origins of our actions ideas do indeed matter They make us human In *Meaningful Economics* Bart J Wilson challenges economics to directly engage human beings as we really are not as economists ideally assume Wilson argues that economic science is as much about purposes and human values as it is about incentives Moreover he shows how the outcomes of our decisions costs and benefits and the origins of our decisions motives and goals can be understood in an integrated way Over the course of the book Wilson develops a framework that connects the origins of human action to the outcomes of human action explaining human conduct with causes and effects He then shows how three basic principles of economics trade specialization and property require meaning values and purpose With a fresh perspective and a novel theoretical framework that bridges economics and ethics *Meaningful Economics* explains the roots of human conduct and its economic effects by grounding a science of economics in the moral sentiments that prompt human beings to act

Broadway and Economics Matthew C. Rousu, 2018-06-27 Economics has often been described as the dismal science with TV and movies reinforcing this description However economics is a powerful tool that can be used to understand how the world works helping to answer confusing puzzles and solve the world's problems Surprisingly Broadway musicals are an excellent way to show this Musical tell engaging stories through song and many are rich with economic concepts This book analyzes 161 songs from 90 musicals to explore what they can teach us about supply and demand monetary policy and numerous other core economic concepts While some songs have an obvious connection to economics other connections may seem less apparent When you hear Let it Go from Frozen does your mind think about a firm's production decisions After reading this book it will Whether showing how Hamilton can illustrate concepts of central banking or how Stars from Les Miserables provides a perfect example of inelastic demand the author presents complicated topics in an understandable and entertaining way Featuring classic songs from some of the most popular shows ever produced along with some hidden gems *Broadway and Economics* will be of interest to anybody studying an introductory economics course as well as theatre aficionados

Principles of Microeconomics (Second Edition) Lee

Coppock,Dirk Mateer,2017 **What Can Behavioral Economics Teach Us about Teaching Economics?** Supriya Sarnikar,2015-11-19 Sarnikar cites evidence of frequent misconceptions of economics amongst students graduates and even some economists and argues that behavioral economists are uniquely qualified to investigate causes of poor learning in economics She conducts a review of the economics education literature to identify gaps in current research efforts and suggests a two pronged approach to fill the gaps an engineering approach to the adoption of innovative teaching methods and a new research program to enhance economists understanding of how learning occurs To facilitate research into learning processes Sarnikar provides an overview of selected learning theories from psychology as well as new data on hidden misconceptions amongst beginning students of economics She argues that if they ask the right questions economists of all persuasions are likely to find surprising lessons in the answers of beginning students of economics *Principles of Macroeconomics (Second Edition)* Lee Coppock,Dirk Mateer,2017
