Value Creation 4.0 - Marketing Products in the 21st Century Gábor Rekettye, 2019-08-15 Value Creation 4.0 is a marketing guide to the age of the fourth industrial revolution Industry 4.0. This title draws attention to the situation which poses new challenges and risks for the whole of humanity. The book takes an essentially practice-oriented approach. The book intends to highlight the importance of the topic, define its conceptual framework and present its practical applications. The book is therefore primarily recommended for practitioners. The topics of the book, together with the supporting exhibits and cases, which also include international dimensions, provide information for them that can help increase their competitiveness. The book can also be very handy in higher education. Whole courses can be built on it as the book comprises 4 parts and 14 chapters which can provide the basis for lectures. Each part is illustrated with cases and some of the more than 30 exhibits could be used for the efficient processing of the material and for further reflection.

Campus Network Architectures and Technologies Ningguo Shen, Bin Yu, Mingxiang Huang, Hailin Xu, 2021-04-25 Campus Network Architectures and Technologies begins by describing the service challenges facing campus networks and then details the intent-driven campus network architectures and technologies of Huawei Cloud Campus Solution. After reading this book, you will have a comprehensive understanding of next-generation campus network solutions, technical implementations, planning, design, and other know-how. Leveraging Huawei's years of technical expertise and practices in the campus network field, this book systematically describes the use of technical solutions such as virtualization, big data, AI, and SDN in campus networks. You will be able to reconstruct campus networks quickly and efficiently utilizing this informative description. Additionally, this book provides detailed suggestions for campus network design and deployment based on Huawei's extensive project implementation experience, assisting with the construction of automated and intelligent campus networks required to cope with challenges. This is a practical, informative, and easy-to-understand guide for learning about and designing campus networks. It is intended for network planning engineers, network technical support engineers, network administrators, and enthusiasts of campus network technologies.
