A Comprehensive Persian-English Dictionary, Including the Arabic Words and Phrases to be Met with in Persian Literature Francis Joseph

Steingass,1947 *A Comprehensive Persian-English Dictionary Including the Arabic Words and Phrases to be Met with in Persian Literature* F. Steingass,1957

The Truth about the Trusts John Moody,1904 **Trust Protectors: A Practice Manual with Forms** Alexander A. Bove, Jr.,2014-09-01

The trust protector is generally regarded as a relatively new position in trust law and the key feature of the position is that the protector may be granted powers over the trust which are generally superior to those of the trustee This places the protector in a position where by the exercise of his powers he can cause the trust to adjust to unforeseen changes or new conditions without the need for court action or beneficiary approval This work takes the firm position that with only limited exception the role of the protector is a fiduciary one imposing on the protector a duty to act in the best interests of the purposes of the trust and the beneficiaries Unfortunately a substantial segment of the legal community as well as the legislative bodies of a number of international jurisdictions have taken a position that the protector is not a fiduciary or that he may be declared in the trust not to be a fiduciary and that the power granted him under the trust may be declared to be personal powers whether or not such is the case and thus he would have no liability for his actions or inactions while serving as protector This attraction of providing total exculpation of the protector has effectively engendered a quick acceptance of the position by the bulk of the legal community and even by the legislatures of a number of jurisdictions though almost totally unsupported by relevant case law As a result we have been seeing trusts which incorporate the use of a protector having the power to make critical dispositive and administrative decisions as well as extensive modifications to the trusts without being exposed to liability for negligence or bad decisions which result in damages This work will examine in detail the role of the protector of the trust the relationship between the protector and the trustee between the protector and the beneficiaries and the protector s responsibilities to the purposes of the trust It will

demonstrate with legal support that the role of the protector is not a new role that in fact the protector is simply a new name for the decades old position of trust advisor and that the trust advisor is consistently regarded as a fiduciary in relevant treatises and has been repeatedly held to be a fiduciary in relevant cases The discussion will also review and analyze the historical issues and professional commentary relevant to trust law and the role of protector as well as case decisions in various international jurisdictions which have shed light on the issues and some of the positions taken in the statutes of a number of jurisdictions in the United States and across the world All legal aspects of the role will be examined including the rights of the protector the protector s relationship to the trustee and the courts regard for and treatment of the position Further the work will discuss in detail all of the practical considerations in using a protector such as selection and special drafting considerations the use of a protector in a foundation and in brief the numerous tax issues that may apply The conclusion will be that with only very limited exception which will be explained the protector is unquestionably a fiduciary and just as a trustee he should be held to fiduciary standards Accordingly while it is certainly possible to grant personal powers to an individual under a trust those powers per se conflict with the duties of a protector And while it is also possible to reduce the fiduciary liability of a protector to a minimum it is not possible to eliminate it entirely regardless of trust language attempting to do so

Understanding Trusts and Estates Roger W. Andersen, 1999 The Truth about the Trusts; a Description and Analysis of the American Trust Movement John Moody, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1904 edition Excerpt of reason and common sense They were obliged from the very beginning to carry the corporation along on a highly inflated plane with the result that the moment more normal conditions appeared in the steel industry and the boom disappeared the vast framework of inflated capital fell with a heavy crash The chief beneficiary of all this has been Mr Carnegie who received a full tangible return for an extraordinarily ethereal valuation This was more or less true of course of all the others who sold out to the Trust but the Carnegie interests were by far the greater beneficiaries of this inflation of expectancy The new Trust was loaded so heavily at the start with a watered capitalization that the best efforts of the many brainy men at its head have apparently been given for the past three years largely to the work of devising plans for distributing its securities and lightening the load of capitalization which had been forced upon them at the start Such a condition naturally led with other plans to the ill fated profit sharing scheme which is discussed on another page The valuation of the Steel Trust properties has been a matter of much controversy Of course during its first year when earnings were and promised to continue phenomenal the prevailing Wall Street opinion was that the tangible value of the properties was a matter of no importance but since the readjustment of prices much more attention has been paid to this subject In the

summer of 1902 President Schwab made an affidavit in connection with the Hodge suit wherein he gave a valuation of 300 000 000 for plants machinery etc 80 000 000 for transportation properties 100 000 000 for coal and coke fields 700 000 000 for iron and bessemer ore The Trusts William Miller Collier,1900 *The Complete Book of Trusts* Martin M.
