**Materials Performance** ,1998-07     *Materials Evaluation* ,1999     **Corrosion Standards II** P. McIntyre,D. J. Mills,1996     Control Criteria and Materials Performance Studies for Cathodic Protection of Reinforced Concrete John J. Bartholomew,1993 This work investigated the feasibility of improved and simplified control criteria for cathodic protection of concrete structures Corrosion rates of steel were established in a simulated concrete environment as a function of chloride contamination pH temperature and cathodic protection current mathematical models were developed to establish concentration profiles which develop as a result of cathodic protection current and to study current distributions which result from geometric factors These studies are combined to develop improved and simplified current based control criteria Long term effects of cathodic protection current on concrete and aggregate near the steel and the anode were also investigated
