Programming Interviews For Dummies

John Sonmez, Eric Butow, 2019-10-15

Get ready for interview success

Programming jobs are on the rise and the field is predicted to keep growing fast

Landing one of these lucrative and rewarding jobs requires more than just being a good programmer

Programming Interviews For Dummies explains the skills and knowledge you need to ace the programming interview

Interviews for software development jobs and other programming positions are unique

Not only must candidates demonstrate technical savvy they must also show that they're equipped to be a productive member of programming teams and ready to start solving problems from day one

This book demystifies both sides of the process offering tips and techniques to help candidates and interviewers alike

Prepare for the most common interview questions

Understand what employers are looking for

Develop the skills to impress non technical interviewers

Learn how to assess candidates for programming roles

Prove that you or your new hires can be productive from day one

Programming Interviews For Dummies gives readers a clear view of both sides of the process so prospective coders and interviewers alike will learn to ace the interview

Cracking the Coding Interview

Ace the Software Engineering Interview

Ryan Ylitalo, 2015-12-10

Having Trouble with the Technical Interview

Are you contemplating a job change

Are you ready to begin the interview process

Is this your first interview experience

Perhaps you have been through this process multiple times

Do you find the programming interview process intimidating and overwhelming

Don't let fear and apprehension keep you from performing at your best during your next coding interview

A Technical Interview Preparation Framework

During my years in the software engineering industry I've been on both sides of the technical interview table

numerous times I have interviewed hundreds of Java developers and software engineers

I've played key roles in improving the software engineer hiring and recruiting processes at some large organizations

I've conducted the coding or programming interview the generic technical interview the core Java interview the case interview and the problem solving interview

During this process I've discovered that not all programming interviews are created equal

There are numerous coding and non coding questions that can be used to help indicate the quality of a particular software engineering candidate

Leveraging those experiences I will outline a framework that will help you understand the ideal time to change jobs provide guidance on which organizations to seek out or avoid and then guide you through the preparation and interview process in a way that will help you best represent yourself when it is time to showcase your talents and skills

Preparation is the key to a successful

coding interview This book will help set the expectations on what things an interviewer looks for in a technical candidate Interview Questions and Answers There are a number of questions that you should have answered prior to your next interview You need to understand what motivations are driving your job search You should know what kinds of questions an interviewer is likely to ask you and what level of importance is applied to your answers to various questions and question types While a Java developer would expect to see core Java questions and a Net developer would expect to see core Net questions there are a host of other topic areas that are important to the interviewer You will find the following included in this book Questions you should ask yourself when thinking about a job switch Questions to ask your interviewer to help determine the organizational health of your potential employer Characteristics of a great software engineer Essential software engineer skills and competencies both coding and non coding related The types of interview questions you may encounter Checklist to help you prepare for your next interview Interview questions you may be asked and what the interviewer is looking for in your answers Questions you should ask your interviewer and the answers you should be looking for
