Routing type

BGP dynamic routing

The available routes are learned dynamically through BGP. The Oracle router learns the routes from your on-premises network, and advertises your VCN's subnets to your on-premises network.

Static routing

Routes are static and not learned dynamically. Here you provide routes to your on-premises network that you want the Oracle router to know about. Your network engineer must also configure your CPE device with static routes to the VCN's subnets.

Policy based routing

Use this option for a policy based CPE device or if you require multiple encryption domains.
