Proprietary Software Versus Open Source Software For Education:

The SAGE Encyclopedia of Online Education Steven L. Danver, 2016-09-20 Online education both by for profit institutions and within traditional universities has seen recent tremendous growth and appeal but online education has many aspects that are not well understood The SAGE Encyclopedia of Online Education provides a thorough and engaging reference on all aspects of this field from the theoretical dimensions of teaching online to the technological aspects of implementing online courses with a central focus on the effective education of students Key topics explored through over 350 entries include Technology used in the online classroom Institutions that have contributed to the growth of online education Pedagogical basis and strategies of online education Effectiveness and assessment Different types of online education and best practices The changing role of online education in the global education system Sustainability on University Campuses: Learning, Skills Building and Best Practices Walter Leal Filho, Ugo Bardi, 2019-06-03 The implementation of sustainability initiatives on campuses is an essential component of promoting sustainability in the higher education context In addition to reflecting an awareness of environmental issues campus programmes demonstrate how seriously universities take sustainability at the institutional level There is a lack of truly interdisciplinary publications that comprehensively address the issue of campus greening and there is an even greater need for publications that do so at a truly international level This book meets these needs It is one of the outcomes of the Second Symposium on Sustainability in University Campuses SSUC 2018 which was jointly organised by the University of Florence Italy Manchester Metropolitan University UK the Research and Transfer Centre Sustainable Development and Climate Change Management and the European School of Sustainability Science and Research at the Hamburg University of Applied Sciences Germany in cooperation with the Inter University Sustainable Development Research Programme IUSDRP The book showcases examples of campus based research and teaching projects regenerative campus design low carbon and zero carbon buildings waste prevention and resilient transport among others Ultimately it demonstrates the role of campuses as platforms for transformative social learning and research and explores the means by which university campuses can be made more sustainable The aims of this publication are as follows to provide universities with essential information on campus greening and sustainable campus development initiatives from around the world to share ideas and lessons learned in the course of research teaching and projects on campus greening and design especially successful initiatives and good practice and to introduce methodological approaches and projects intended to integrate the topic of sustainable development in campus design and operations This book gathers contributions from researchers and practitioners in the field of campus greening and sustainable development in the widest sense from business and economics to the arts administration and the environment and hailing from Europe Latin America North America and Asia Transforming Education Unesco, 2011 Este informe cita ejemplos de utilizaci n de las TIC en diferentes regiones del mundo frica la regi n rabe Asia y Am rica Latina y proporciona un buen ejemplo de los cambios que
