Head First Java 2nd Edition:

Head First Java Kathy Sierra, Bert Bates, 2003 Head First Java engages readers on many levels bringing the latest learning theories and research together to create not just a book to read but a multi sensory learning experience

Head First Java, 2nd Edition Bert Bates, 2005 Learning a complex new language is no easy task especially when it's an object oriented computer programming language like Java You might think the problem is your brain It seems to have a mind of its own a mind that doesn't always want to take in the dry technical stuff you're forced to study The fact is your brain craves novelty It's constantly searching scanning waiting for something unusual to happen After all that's the way it was built to help you stay alive It takes all the routine ordinary dull stuff and filters it to the background so it won't interfere with your brain's real work recording things that matter How does your brain know what matters It's like the creators of the Head First approach say suppose you're out for a hike and a tiger jumps in front of you what happens in your brain Neurons fire Emotions crank up Chemicals surge That's how your brain knows And that's how your brain will learn Java Head First Java combines puzzles strong visuals mysteries and soul searching interviews with famous Java objects to engage you in many different ways It's fast it's fun and it's effective And despite its playful appearance Head First Java is serious stuff a complete introduction to object oriented programming and Java You'll learn everything from the fundamentals to advanced topics including threads network sockets and distributed programming with RMI And the new second edition focuses on Java 5.0 the latest version of the Java language and development platform Because Java 5.0 is a major update to the platform with deep code level changes even more careful study and implementation is required So learning the Head First way is more important than ever If you've read a Head First book you know what to expect a visually rich format designed for the way your brain works If you haven't you're in for a treat You'll see why people say it's unlike any other Java book you've ever read By exploiting how your brain works Head First Java compresses the time it takes to learn and retain complex information Its unique approach not only shows you what you need to know about Java syntax it teaches you to think like a Java programmer If you want to be bored buy some other book But if you want to understand Java this book's for you

you're in for a treat. You'll see why people say it's unlike any other Java book you've ever read. By exploiting how your brain works, *Head First Java* compresses the time it takes to learn and retain complex information. Its unique approach not only shows you what you need to know about Java syntax, it teaches you to think like a Java programmer. If you want to be bored, buy some other book. But if you want to understand Java, this book's for you. [Ajax on Java](#) Steven Douglas Olson, 2007-02-22 Provides information on building Web applications using Ajax and Java. *Java Cookbook* Ian F. Darwin, 2004-06-14 Covers all of the major APIs from Java 1.4 and 1.5. Covers many specialized APIs including those for working with Struts, Ant, and other Open Source tools. [JavaServer Pages](#) Hans Bergsten, 2004 This revised and updated edition of this practical guide is for both Web developers who want to make the most of Java Server Pages JSP potential for building dynamic Web applications and programmers who want to master the JSP API and use JSP effectively in a distributed enterprise application. **JavaServer Faces** Hans Bergsten, 2004-04-22 With this text, developers will learn to use the new JavaServer Faces framework to build real world web applications. It covers topics such as the JSF environment, validating input, controlling page navigation, working with tabular data, and developing custom renders and custom components.
