Learning Agility: Unlock the Lessons of Experience George Hallenbeck, 2016-05-25 Experience is vital for a leader's success but merely having an experience such as a challenging new job, a stretch assignment, or an unexpected hardship isn't enough. The best leaders know not just how to seek out developmental experiences but how to extract the essential lessons within each experience and apply them to future situations. This book will walk you through a four-step process for making the most out of your experiences. You will learn how to seek out beneficial experiences, make sense out of both old and new experiences, internalize the most useful lessons from each experience, and apply those lessons to new, unfamiliar, and challenging situations. By becoming learning agile, you'll be able to use the lessons of experience to meet the challenges headed your way.

The Handbook of Adult and Continuing Education Tonette S. Rocco, M. Cecil Smith, Robert C. Mizzi, Lisa R. Merriweather, Joshua D. Hawley, 2023-07-03 Co-published with Colleges and universities are increasingly becoming significant sites for adult education scholarship in large part due to demographic shifts. With fewer U.S. high school graduates on the horizon, higher education institutions will need to attract non-traditional, i.e., older adult learners to remain viable both financially and politically. There is a need to develop a better corpus of scholarship on topics as diverse as what learning theories are useful for understanding adult learning, how higher education institutions are changing in response to the surge of adult students, what academic programs are providing better learning and employment outcomes for adults in college, and how adult education scholars can offer much to the policy debates taking place in higher education. A main premise of this handbook is that adult and continuing education should not simply respond to rapidly changing social, economic, technological, and political environments across the globe but should lead the way in preparing adults to become informed, globally connected, critical citizens who are knowledgeable, skilled, and open and adaptive to change and uncertainty. The Handbook of Adult and Continuing Education provides rich information on the contemporary issues and trends that are of concern to adult and continuing education, the programs and resources available to adult learners, and of opportunities to challenge and critique the structures embedded in the field that perpetuate inequity and social injustice. Adult education is a discipline that foresees a better tomorrow, and The Handbook is designed to engage and inspire readers to assist the field to seek new paths in uncertain and complex times, ask questions, and to help the field flourish. The Handbook is divided into five sections. The first, Foundations, situates the field by describing the developments, core debates, perspectives, and key principles that form the basis of the field. The second, Understanding Adult Learning, includes chapters on adult learning, adult development, motivation, access, participation, and support of adult learners, and mentoring. Teaching Practices and Administrative Leadership, the third section, offers chapters on organization and administration, program planning, assessment, and evaluation, teaching perspectives, andragogy, and pedagogy, public pedagogy, and digital technologies for teaching and learning. The fourth section is Formal and Informal Learning Contexts. Chapters cover adult basic, GED, and literacy education, English as a

Second Language Programs family literacy prison education workforce development military education international development education health professions education continuing professional education higher education human resource development and workplace learning union and labor education religious and spiritual education cultural institutions environmental education social and political movements and peace and conflict education The concluding Contemporary Issues section discusses decolonizing adult and continuing education adult education and welfare teaching social activism lesbian gay bisexual trans queer and straight allies gender and its multiple forms disability older adults and intergenerational identities race and ethnicity working class whiteness and privilege and migrants and migrant education The editors culminate with consideration of next steps for adult and continuing education and priorities for the future Lead 4 Success: Learn the Essentials of True Leadership George Hallenbeck, 2016-12-16 Lead 4 Success sets your development as a leader on the right track focusing on the four fundamental skills that fuel the thoughts and drive the actions of leaders who make a difference SELF AWARENESS understanding who you are and what you have to offer LEARNING AGILITY the capability to absorb new information process it and use it to meet new challenges quickly and decisively COMMUNICATION the ability to establish shared understanding and convey a vision for the future INFLUENCE the power to persuade others to act on that vision Each of those essential skills is comprised of other skills You will learn about all of them in Lead 4 Success To ensure the success of your leadership journey use this book as a guide Its tools and ideas will help you develop and put into practice the skills that you need to demonstrate true leadership **Leveraging the Impact of 360-Degree Feedback, Second Edition** John W.
