Duffuaa,Abdul Raouf,Jeza Zimir,Knezevic, Daoud Ait-Kadi,2009-07-30 To be able to compete successfully both at national and international levels production systems and equipment must perform at levels not even thinkable a decade ago Requirements for increased product quality reduced throughput time and enhanced operating effectiveness within a rapidly changing customer demand environment continue to demand a high maintenance performance In some cases maintenance is required to increase operational effectiveness and revenues and customer satisfaction while reducing capital operating and support costs This may be the largest challenge facing production enterprises these days For this maintenance strategy is required to be aligned with the production logistics and also to keep updated with the current best practices Maintenance has become a multidisciplinary activity and one may come across situations in which maintenance is the responsibility of people whose training is not engineering This handbook aims to assist at different levels of understanding whether the manager is an engineer a production manager an experienced maintenance practitioner or a beginner Topics selected to be included in this handbook cover a wide range of issues in the area of maintenance management and engineering to cater for all those interested in maintenance whether practitioners or researchers This handbook is divided into 6 parts and contains 26 chapters covering a wide range of topics related to maintenance management and engineering Maintenance Benchmarking and Best Practices Ralph W. Peters,2010-06-14 Over the past decade companies have redirected their maintenance operational focus from internal cost cutting to profit maximization This approach is referred to as profit centered maintenance Peters provides maintenance supervisors and managers with a benchmarking best practices road map called the Maintenance Operations Scoreboard The Scoreboard will allow maintenance managers to a determine and quantify benefits and savings b improve craft productivity and c define a strategy to improve efficiency and productivity These things are at the heart of a successful Profit Centered Maintenance organization The author devised Maintenance Operations Scoreboard is used to perform over 200 maintenance evaluations in over 5 000 profit centered maintenance organizations For example at Honda of America it was used extensively to direct maintenance

strategy It was later translated into Japanese for presentation to key Japanese executives Another excellent example is Boeing Commercial Aircraft Inc Boeing combined elements from this same Scoreboard with their company wide maintenance goals to develop The Boeing Scoreboard for Maintenance Excellence Over 60 facility maintenance work units at region group and team levels are evaluated at on site visits using the Scoreboard criteria *Proceedings* ,2005 Building Services Journal ,2007 *Engineering and Mining Journal* ,2004 Informatics Abstracts ,1988 **Telecommunications Directory** ,2007 **CIO.** ,2006 Proceedings of the Insurance Accounting and Systems Association Insurance Accounting and Systems Association,1984
