

Part 1: Multiple Choice. Circle the letter corresponding to the best answer.

1. A fair coin is tossed four times, and each time the coin lands heads up. If the coin is then tossed 1996 more times, how many heads are most likely to appear in these 1996 additional tosses?
 (a) 996
 (b) 998
 (c) 1000
 (d) 1002
 (e) 1996

2. Dwayne has collected data on the number of occupants of cars travelling on the road past his house for the past week. Based on his data, he has constructed a probability model for the number of occupants of a randomly-selected car on his street. Which of the following could be his model?

(a)

No.	Prob.
1	0.6
2	0.2
3	0.2
4	0.1
≥5	0.05

(b)

No.	Prob.
1	0.5
2	0.25
3	0.15
4	0.06
≥5	0.04

(c)

No.	Prob.
1	2
2	1
3	0.1
4	0.1
≥5	0.4

(d)

No.	Prob.
1	1/2
2	1/4
3	1/4
4	1/8
≥5	1/8

(e)

No.	Prob.
1	0.5
2	0.2
3	0.1
4	0.05
≥5	0.05

Use the following for questions 3 – 5.

The two-way table below gives information on the performers in the New York Philharmonic Orchestra, categorized by section (type of instrument) and gender.

	Strings	Woodwinds	Brass	Totals
Male	24	8	12	44
Female	37	6	1	44
Totals	61	14	13	88

3. You select one musician from this group at random. What is the probability that this person plays a woodwind?
 (a) 0.091 (b) 0.136 (c) 0.159 (d) 0.182 (e) 0.571
4. You select one musician from this group at random. If the person is a male, what is the probability that he plays a woodwind?
 (a) 0.091 (b) 0.136 (c) 0.159 (d) 0.182 (e) 0.571
5. You select one musician from this group at random. Which of the following statement is true about the events "Plays a woodwind" and "Male"?
 (a) The events are mutually exclusive and independent.
 (b) The events are not mutually exclusive but they are independent.
 (c) The events are mutually exclusive, but they are not independent.
 (d) The events are not mutually exclusive, nor are they independent.
 (e) The events are independent, but we do not have enough information to determine if they are mutually exclusive.

Ap Statistics Multiple Choice Answers:

Cracking the AP Statistics Exam Madhuri S. Mulekar, Princeton Review, 2004 The fiercer the competition to get into college the more schools require that students prove themselves in other ways than SAT scores and grade point averages The more expensive college educations become the more students take advantage of the opportunity to test out off first year college courses Includes 2 sample tests with full explanations for all answers The Princeton Review's proven score raising skills and techniques Complete subject review of all the material likely to show up on the AP Statistics exam **5 Steps to a 5 AP Statistics, 2010-2011 Edition** Duane C. Hinders, 2010-01-01 A Perfect Plan for the Perfect Score We want you to succeed on your AP exam That's why we've created this 5 step plan to help you study more effectively use your preparation time wisely and get your best score This easy to follow guide offers you a complete review of your AP course strategies to give you the edge on test day and plenty of practice with AP style test questions You'll sharpen your subject knowledge strengthen your thinking skills and build your test taking confidence with Full length practice exams modeled on the real test All the terms and concepts you need to know to get your best score Your choice of three customized study schedules so you can pick the one that meets your needs The 5 Step Plan helps you get the most out of your study time Step 1 Set Up Your Study Program Step 2 Determine Your Readiness Step 3 Develop the Strategies Step 4 Review the Knowledge Step 5 Build Your Confidence Topics include Overview of Statistics Basic Vocabulary One Variable Data Analysis Two Variable Data Analysis Design of a Study Sampling Surveys and Experiments Random Variables and Probability Binomial Distributions Geometric Distributions and Sampling Distributions Confidence Intervals and Introduction to Inference Inference for Means and Proportions and Inference for Regression Also includes Practice tests AP Advanced Placement Program and College Board are registered trademarks of the College Entrance Examination Board which was not involved in the production of and does not endorse this product *Cracking the AP Statistics Exam*, 2002 **Statistics** Robin H. Lock, Patti Frazer Lock, Kari Lock Morgan, Eric F. Lock, Dennis F. Lock, 2025-12-16 Statistics Unlocking the Power of Data 4th Edition with corequisite support content is designed for an introductory statistics course focusing on data analysis using real world data and applications Students use simulation methods to effectively collect analyze and interpret data to draw conclusions Randomization and bootstrap interval methods introduce the fundamentals of statistical inference bringing concepts to life through authentically relevant examples More traditional methods like t tests chi square tests etc are introduced after students have developed a strong intuitive understanding of inference through randomization methods While any popular statistical software package may be used the authors have created StatKey to perform simulations using data sets and examples from the text A variety of videos activities and a modular chapter on probability are adaptable to many classroom formats and approaches *Cracking the AP Statistics, 2002-2003 Edition* Princeton Review (Firm), 2002-03-15 The Princeton Review realizes that acing the AP Statistics exam is very different from getting straight As in school The Princeton

Review doesn't try to teach students everything there is to know about statistics only the techniques they'll need to score higher on the exam. There's a big difference. In *Cracking the AP Statistics TPR* will teach test takers how to think like the test makers and eliminate answer choices that look right but are planted to fool test takers. Score higher by learning to use a calculator effectively. Increase efficiency by learning to read statistical tables. Show work as the graders want to see it and earn more points. This book includes 2 full length simulated AP Statistics exams. All of The Princeton Review practice test questions are like the ones test takers will see on the actual exam and every solution is fully explained.

5 Steps to a 5 AP Statistics, 2008-2009 Edition Duane C. Hinders, 2008-01-01 A PERFECT PLAN FOR THE PERFECT SCORE We want you to succeed on your AP exam. That's why we've created this 5 step plan to help you study more effectively use your preparation time wisely and get your best score. This easy to follow guide offers you a complete review of your AP course strategies to give you the edge on test day and plenty of practice with AP style test questions. You'll sharpen your subject knowledge strengthen your thinking skills and build your test taking confidence with Full length practice exams modeled on the real test. All the terms and concepts you need to know to get your best score. Your choice of three customized study schedules so you can pick the one that meets your needs. The 5 Step Plan helps you get the most out of your study time. Step 1 Set Up Your Study Program Step 2 Determine Your Readiness Step 3 Develop the Strategies Step 4 Review the Knowledge Step 5 Build Your Confidence

AP Statistics Research and Education Association, 1997-01-01 Get the AP college credits you've worked so hard for. Our savvy test experts show you the way to master the test and score higher. This new and fully expanded edition examines all AP Statistics areas including in depth coverage of univariate and bivariate data measures of dispersion sampling and hypothesis testing. The comprehensive review covers every possible exam topic exploring data planning a study anticipating patterns and statistical inferences. Features 6 full length practice exams with all answers thoroughly explained. Follow up your study with REA's test taking strategies powerhouse drills and study schedule that get you ready for test day.

DETAILS Comprehensive up to date subject review of every AP Statistics topic used in the AP exam. Study schedule tailored to your needs. Packed with proven key exam tips insights and advice. 6 full length practice exams. All exam answers are fully detailed with easy to follow easy to grasp explanations.

TABLE OF CONTENTS About Research non graphing calculators are allowed only if they have the computational capabilities described previously. The following however are not permitted: powerbooks and portable computers, pocket organizers, electronic writing pads, pen input devices or devices with typewriter style or QWERTY keyboards.

ABOUT THE REVIEW SECTIONS As mentioned earlier this book has a review chapter for each of the four topics covered on the exam. The following are the four review chapters in this book that cover the topics on the AP Statistics Exam: Exploring Data, Planning a Study, Anticipating Patterns, Statistical Inferences. The review chapters provide a thorough discussion of the material tested on the exam. By studying the review chapters and by taking the practice tests you can prepare yourself to score high on the AP Statistics exam.

SCORING THE EXAM The multiple choice section of

the exam is scored by crediting each correct answer with one point and deducting one fourth of a point for each incorrect answer. Unanswered questions receive neither credit nor deduction. The free response questions are graded by readers chosen from around the country for their familiarity with the AP Program. Each free response question is read and scored with the reader providing the score on a 0 to 4 scale, 0 being the lowest and 4 the highest. The free response questions are scored based on the statistical knowledge and communication the student used to answer the question. The statistical knowledge criteria include identifying the important concepts of the problem and demonstrating statistical concepts and techniques that result in a correct solution of the problem. The communication criteria include an explanation of what was done and why along with a statement of conclusions drawn. Once the free response questions have been graded by all of the readers, the scores are converted. The open ended questions count as 75% of the free response score, the investigative task question counts as 25%.

SCORING THE MULTIPLE CHOICE SECTION For the multiple choice section use this formula to calculate your raw score: $\text{Number Right} - \frac{1}{4} \times \text{Number Wrong}$. Round to the nearest whole number. Note: Do not include unanswered questions in the formula.

SCORING THE FREE RESPONSE QUESTIONS For the free response section use this formula to calculate your raw score: $5 \times \text{Open Ended Questions} + 1 \times \text{Investigative Task Question}$.

THE COMPOSITE SCORE To obtain your composite score use the following method: $\text{Multiple Choice Raw Score} + \text{Free Response Raw Score}$.

AP grades are interpreted as follows: 5 extremely well qualified, 4 well qualified, 3 qualified, 2 possibly qualified, and 1 no recommendation.

SCORES THAT RECEIVE COLLEGE CREDIT AND OR ADVANCED PLACEMENT Most colleges grant students who earn at least a 3 college credit and or advanced placement. You should check with your school guidance office about specific college requirements.

STUDYING FOR YOUR AP EXAMINATION It is never too early to start studying. The earlier you begin the more time you will have to sharpen your skills. Do not procrastinate. Cramming is not an effective way to study since it does not allow you the time needed to learn the test material. It is very important for you to choose the time and place for studying that works best for you. Some students may set aside a certain number of hours every morning to study while others may choose to study at night before going to sleep. Other students may study during the day while waiting on a line or even while eating lunch. Only you can determine when and where your study time will be most effective. But be consistent and use your time wisely. Work out a study routine and stick to it. When you take the practice exams try to make your testing conditions as much like the actual test as possible. Turn your television and radio off and sit down at a quiet table free from distraction. Make sure to time yourself. Complete the practice tests, score your tests and thoroughly review the explanations for the questions you answered incorrectly. However do not review too much during any one sitting. Concentrate on one problem area at a time by reviewing the question and explanation and by studying our reviews until you are confident that you completely understand the material. Since you will be allowed to write in your test booklet during the actual exam you may want to write in the margins and spaces of this book when practicing. However do not make

miscellaneous notes on your answer sheet Mark your answers clearly and make sure the answer you have chosen corresponds to the question you are answering Keep track of your scores This will enable you to gauge your progress and discover general weaknesses in particular sections You should carefully study the reviews that cover the topics causing you difficulty as this will build your skills in those areas To get the most out of your studying time we recommend that you follow the Study Schedule It details how you can best budget your time TEST TAKING TIPS Although you may be unfamiliar with tests such as the Advanced Placement exams there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties Listed below are ways to help yourself become accustomed to the AP exam some of which may also be applied to other standardized tests Become comfortable with the format of the AP Examination in Statistics When you are practicing to take the exam s simulate the conditions under which you will be taking the actual test s You should practice under the same time constraints as well Stay calm and pace yourself After simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual test much more confidently Know the directions and format for each section of the exam Familiarizing yourself with the directions and format of the different test sections will not only save you time but will also ensure that you are familiar enough with the AP exam to avoid anxiety and the mistakes caused by being anxious Work on the easier questions first If you find yourself working too long on one question make a mark next to it in your test booklet and continue After you have answered all of the questions that you can go back to the ones you have skipped Use the process of elimination when you are unsure of an answer If you can eliminate three of the answer choices you have given yourself a fifty fifty chance of getting the item correct since there will only be two choices left from which to make a guess If you cannot eliminate at least three of the answer choices you may choose not to guess as you will be penalized one quarter of a point for every incorrect answer Questions not answered will not be counted Be sure that you are marking your answer in the oval that corresponds with the correct item in the test booklet Since the multiple choice section is graded by machine marking the wrong answer will throw off your score
