**Teaching English for the Real World** Joe Nutt, 2020-05-15 So much of the teaching in schools of how the English works does not prepare students for the real world So little has changed in exams the curriculum or the way people think about English teaching in several decades This book is Joe Nutt s attempt to help schools redress that dramatic imbalance It is not in any sense a practical teaching guide only for English teachers nor is it full of hints and tips lesson plans and schemes of work Teaching English for the Real World is a far wider consideration of what schools and English teachers should be doing if they wish to prepare secondary school children to be successful and effective users of English in the real world of work higher education and adult life they will all too soon enter If you are an English teacher by the time you finish reading Teaching English for the Real World you should be better prepared to deliver lessons that those you teach will forever be grateful for The book consists of four main sections English in context towards the GCSE choosing texts and technology matters It starts by putting English clearly into context through a range of current examples It urges teachers to consider the complex role English usage plays on everything from the side of a bus through tissue thin social media garish slideshows and perky TED talks to the hundreds of pages of research or official reports so often used as the basis for serious political policy and commercial decision making It will then examine the classroom status quo and instead of the unrealistic and damaging focus on experiment and creativity instead of requiring them to write newspaper articles stories or speeches the main deliverables in any English GCSE exam the book will argue that teachers should think carefully about how to connect what children write with who they are and where they really want to publish The next section deals with choices of texts There is a place for children to be taught to write well by example but there are challenging questions to ask about much of the material routinely chosen How often are texts and authors selected for study for reasons that have absolutely nothing whatsoever to do with knowledge or linguistic skill and everything to do with politics Even exam boards are guilty of this The final section examines the relationship between English and the technology real people use to produce it It reflects on how technology has impacted on the quality of the reading experience itself and argue that there is a crisis in reading in secondary schools with many children sailing through exams yet leaving school as disinterested and even poor readers And it suggests how teachers might approach introducing these different risks to children and equip them best to make sound judgements about the way they write and communicate for personal and employment purposes in adult life

*AQA English Language Paper 1 Practice Papers* Grainne Hallahan, Andrew Bruff, 2019-03-08 If you re at this point you must be getting ready for your English language exams so we have a few words of advice for you Exams aren t bad They re your opportunity to show off just how much you know about English and you have been studying it since you were five so you definitely know a thing or two Don t worry about your exams worry never changes anything instead try and see them as an opportunity to show off what you know Practising exam papers is a good way to revise and because this exam is still relatively new there aren t that many past papers out there The papers in this book have been created to try and replicate the exam experience for you Some people might suggest using your literature texts for practice but the whole point of this exam is that it is unseen it s best to work on extracts you ve never read before There is more than one way to tackle an exam paper You could sit it in one go and complete it in exam conditions from start to finish You could go at the papers gently with modelled examples in front of you to help check out the videos at [youtube.com/mrbruff](https://www.youtube.com/mrbruff) Another method is to try three question threes all in a row slide tackling your way through the paper You might want to complete all of the Section B questions before beginning Section A However you do it take your time and use the indicative content at the end to check your work The indicative content isn t everything You might make a point that we haven t included Marking your own work is quite difficult so although these are good to practise on you should share with someone who understands the marking system to mark your work and give you feedback This book is not a guide to the exam it is a set of practice papers For a detailed question by question guide to AQA English language you should pick up a copy of Mr Bruff s *Guide to GCSE English Language* in paperback on Amazon or eBook at [mrbruff.com](https://www.mrbruff.com) Please note we are not endorsed by or affiliated to the AQA exam board We are simply two experienced teachers creating resources
