Foundations of Massage Lisa Casanelia,David Stelfox,2009-12-22 Foundations of Massage 3e is a comprehensive practical and theoretical foundation for all aspects of massage therapy The book prepares students for clinical practice through the presentation of step by step techniques and treatments This revision of this Australian text for the practice of massage therapy includes new material on specialised application of massage such as providing services for people with disabilities working in aged care and providing services for people with chronic disease states and life challenging illnesses More than 350 illustrations and photographs of manual applications Questions and activities at the end of each chapter Comprehensive glossary Evidence for massage therapy completely revised and updated Inclusion of references to legislative and regulatory information to massage therapy practitioners Expanded anatomy illustrations in full colour appendices A more comprehensive chapter on pregnancy massage updated by well known international author Suzanne Yates A more comprehensive chapter on infant massage History chapter has been expanded to include influences on the massage industry from Europe and North America

Pharmacology in Nursing Gayle McKenzie,Bonita Broyles,Mary E. Evans,Rachel Page,Sussan Pleunik,Barry S. Reiss,2016-10-05 Focuses on the use of drugs as medications within the healthcare environment in Australia and New Zealand We use the term medication rather than drug throughout this book to refer to any drug that is used in the healthcare context although the terms are generally interchangeable and it is the generic name of a medication that does not change and is the essential name for the nurse to know we also introduce some abbreviations that are commonly used by healthcare providers and pharmacists in

writing and preparing medication prescriptions Two new chapters have been included in the second edition One chapter covers pharmacogenetics and pharmacogenomics an area of growing interest in personalised medicine and the other covers legal and ethical issues related to the administration of medications from preface
