converted from once hating public speaking or just not liking it very much or just gosh darn afraid of it to actually enjoying it and even having fun with it They went through the process of learning the skills practicing and improving They took action in overcoming their negative attitude and or fears towards public speaking They practiced every chance they could and they began to believe they were capable of being a good or great presenter These people have learned to actually enjoy public speaking find it fun and some have even gone on to become professional speakers This is the group I fit into The Avoiders are people who hate public speaking fear it and wish it could be avoided at all costs If this is you congratulations you are normal and in the majority The good news is you can easily become a converter if you want to and most likely you do because you are reading this book All you have to do to become a converter to go from avoiding public speaking to enjoying it is to learn the skills that are presented in this book practice them at every opportunity you get and then practice some more The more you actually get up and practice the more comfortable you will become And once you are comfortable speaking in front of others your entire life will change After all how we present determines the level of our success The more confident dynamic and engaging you are the more your audience will listen to you believe what you have to say learn from you and do business with you Whether you are a Natural a Converter or an Avoider you will benefit from this book

The Management Skills Builder Ralph S.

Hambrick,1991-09-30 Talent knowledge and hard work do not guarantee success in a managerial or professional career Competent knowledgeable and hardworking people often have less impact and achieve less career success than they deserve Sometimes the missing ingredient for success is a set of fundamental skills skills that give talent knowledge and hard work leverage and visibility The body of knowledge to be mastered in a technical or professional education leaves little or no time for the acquisition of skills that cut across disciplinary boundaries Used in all fields these generic skills are vital to the careers of many managers and professionals The manager and professional who can write efficiently and well who is an effective and willing public speaker who can interview effectively who can and does relate effectively with others who is personally able to use a computer and who can tap into the burgeoning volume of information with some precision has greater probability of success than one who cannot or does not The Management Skills Builder is intended to increase awareness of the need for these skills among intelligent and dedicated professionals and to suggest ideas about how these

skills may be acquired further developed and honed Strategies for the development of each skill are provided along with a resource list that includes recommended books videos and other learning aids
