Islamic Microfinance and Poverty Alleviation at Grassroots in South-Western Nigeria Oyesanya O. Sodiq, 2014 The plethora of poverty in many parts of the Third World Less Developed Countries LDCs despite quite spectacular economic growth has spawned interests in the scourge in academic and policy making circles In the recent years international consensus has emerged to focus development goals on poverty alleviation Governments have agreed to formulate and implement anti poverty plans that would set time bound goals and targets for the substantial reduction of poverty Hence programmes and institutions that provide credit and savings facilities have been promoted by governments international development organizations local non governmental organizations and grassroots bodies as an indispensable strategy for alleviating poverty in Less Developed Countries LDCs and increasingly also within poor communities of Industrially Advanced Countries IACs Microfinance initiative therefore is widely acclaimed as a new innovative approach to alleviate poverty Through many a financial and social intermediation service the poor who were denied access to mainstream banking services are now able to benefit from various financial products and services Today there are more than 7000 micro lending institutions providing loans to more than 25 million poor individuals across the world their vast majority being women Thus the concern over credit provision and finance accessibility to the poor and the vulnerable is inevitably relative to Islamic financial intermediaries that espouse greater socio economic responsibilities social justice equitable distribution of income and wealth and economic development The statistical indices however show that the existing microfinance institutions in Nigeria serve less than one million people out of forty million being the potential number that needs the services And paradoxically the operators of these institutions charge interest rate as high as up to 36% 42% for lending This further aggravates the ubiquitous inequalities in the distribution of wealth and income Also the aggregate micro credit facility in Nigeria account for about 0.2% of the GDP and is less than 1% of total credit in the economy Nigeria being a country with a Muslim majority represents a potential for Islamic Microfinance especially that most Muslims reject the conventional interest based micro financing Therefore the paper is aimed at a critical analysis of poverty alleviation strategies of Al Hayat Relief Foundation

Africa Redemption. From Poverty Eradication to Wealth Creation Ismail Badroen, Jonathan Makuwira, Albert T. Akume, Bethold Kaurivi, Claudios Nhokwara, 2022-08-03 Document from the year 2022 in the subject Politics Topic Development Politics grade A University of Namibia Rundu Campus language English abstract Research has shown that poverty is a man made phenomenon Historical interventions to redress its rampant manifestation especially in Sub Saharan Africa very much remain a serial flaw of misplacements in the hands of wrong architects and premised on the unholy misconception that aid will lead to both poverty alleviation and economic development of Africa Looking at the historical landscape of the poverty debate in Sub Saharan Africa one cannot help but notice the silence or scarce mention of entrepreneurship as the engine for growth in the alleviation of extreme

poverty Therefore the Africa Redemption International Conference ARIC was conceived from the premise of a long and hard look at the serial and regrettable failures of the three salient beaten trek interventions of Structural Adjustment Programs SAPS Poverty Reduction Strategies PRS and the Millennium Development Goals MDGs Earlier interventions focused more on economic growth and paid little attention to social development With the advent of MDGs attention somewhat shifted towards resulting in poverty being reduced by more than half between 1990 and 2015 Critical success factors including infrastructure development domestic resource mobilization and institutional capacity building among others have largely been overlooked by most of these instruments The architecture of poverty reduction strategies has for far too long been the work of foreign agents with little if any of Africans themselves It is generally on this very basis that the ARIC Conference was convened with the objectives to a Bring academics practitioners and policy makers into one unique place to deliberate on issues that keep Africa behind any other parts of the world in emerging out of poverty b Allow policymakers to chart a way forward and share that with the broader body of light minded Africans who want to seriously take the country of scourges of poverty c Allow academics to analyze articulate and recommend what they perceive Africa needs to do in order to overcome its stagnation that has earned its Mantra of a Dark Continent d Invite development activist in the world and Africa in particular to share their isolated experiences with a broader community of stakeholders willing to amplify their good practice efforts to other parts of Africa where they are needed most e Showcase domestic innovators of all sorts

Waqf and Socio-economic Development Abdul Ghafar Ismail, Khalifa Mohd Ali, Raditya Sukmana, 2018 Islamic Microfinance Mehreen Fatima, Hafiz Zahid Mahmood, 2013 This book is based on the research work which is conducted to find out the impact of Islamic Microfinance on poverty For this purpose the clients of Islamic Microfinance Institutions working in Pakistan were taken as respondents Pre and Post project evaluation approach is adopted while conducting the research and a comparison is made between the data of 2009 and 2012 Islamic Microfinance is an emerging industry in Pakistan It has vast potential to merge the mission of microfinance to reach the poor and give them financial access with the Islamic principle of concern for the miserable This book is useful for the Islamic Microfinance Institutions working in Pakistan or in any other country in the world in order to make better strategies for Islamic Microfinance Moreover this book will be helpful and an informative read for the researchers working in the field of Islamic Microfinance
