that duplicates what already exists within that organization and is anathema to the Marine's organizational culture. If the Marine Corps must provide a component to USSOCOM then it should provide a capability that is distinctly Marine. The Marine Corps should offer and USSOCOM should accept placement of all MEU(SOC)s under the combatant command authority of USSOCOM. In the current war the MEU(SOC) is the ideal force to provide the power, resilience, and ensure the unity of command for the special operations commander of all forces involved in a special operation. Additionally, the Marine Corps Special Operations Command should have the typical service responsibilities of training and equipping forces but it should also have an operational responsibility of forming the core of a Joint Task Force for service in small wars. These changes can create more capability for USSOCOM and place the Marine Corps in the forefront of the Global War on Terror.

Do Not Sacrifice the Marine Corps for MARSOC to Succeed the MARSOC Closed Loop Personnel Policy Proposal, 2006

The United States Marine Corps has always stood as the nation's force in readiness, prepared to respond to any crisis that may arise. In the modern era, multiple worldwide crises have arisen, and the nation has relied on its Marines again to resolve these crises. The Marine Corps, through the Marine Corps Forces Special Operations Command (MARSOC), is working to be more than a crisis response but is trying to prevent crises before they arise. As a major subordinate command of the United States Special Operations Command (USSOCOM), MARSOC Marines deploy to partner nation countries in order to assist them in the Global War on Terror. Despite belonging to USSOCOM, the Marines and Sailors of MARSOC must not lose their identity or become a replica of the United States Army Special Forces Command, yet the closed loop policy proposed for MARSOC Marines and Sailors will lead to that end. MARSOC must avoid creating a closed loop personnel system because this practice will not increase Special Operations Forces (SOF) interoperability within the Marine Corps and will deprive junior Marines of SOF-trained mentors and trainers.

Always Faithful, Always Forward Dick Couch, 2014-06-03

Established in 1986, the U.S. Special Operations Command was set up to bring the special operational disciplines of all branches of the military under a single unified command to act on missions involving unconventional warfare, special reconnaissance, foreign internal defense, and direct action. The Marine Special Operations Command (MARSOC) is the newest component of the military's shift toward a fully integrated Special Operations Command structure. At first, the Marines were strongly against any Marines serving under anyone other than another Marine. Then 9/11 happened. In the years following, Marine forces found themselves growing more agreeable to inter-branch operational command, finally forming the Marine Special Operations Command in 2006. Always Faithful, Always Forward follows the journey of a class of Marine candidates from their recruitment through assessment and selection to their qualification as Marines Special Operators. The assessment, selection, and training regimes are a combination of psychological testing and intense military training, as well as being a physical and professional rite of passage. MARSOC Marines must be efficient, agile, independent, and prepared to live hard in the field. They are warriors trained in the full range of military skills, as well as teachers who can train locals to defend their communities and lead them in battle. But

above all they are Marines Their ability to leverage their numbers by embedding with the locals and to live in remote locations has in their short history made them a valuable force and one with great utility in remote reaches of the world Retired Navy Captain Dick Couch has been given unprecedented access to this new command and to the individual Marines of this exceptional special operations unit allowing him to chronicle the history and development of the Marine Special Operations Command and how they find recruit and train their special operators INCLUDES PHOTOGRAPHS **Marsoc** U. Relational Maneuver U S Military,Department of Defense (Dod),David Woods,2019-04-08 This is an extremely impressive and comprehensive late 2018 report Based on historical lessons learned from irregular warfare case studies and internal organizational analysis this thesis seeks to provide Marine Special Operations Command MARSOC with specific implementable recommendations based on Edward Luttwak s concept of relational maneuver Luttwak defines relational maneuver as a style of warfare that requires a deep understanding of the threat and its operational environment to identify vulnerabilities adapt and exploit those weaknesses to destroy the enemy as a system Luttwak argues that irregular warfare requires effective implementation of relational maneuver to achieve operational and strategic success The U S military s experiences in Iraq and Afghanistan from 2009 through 2016 have revealed insufficient use of relational maneuver favoring instead employment of attrition warfare which focuses on optimizing internal organizational efficiency without understanding or adapting to the threat or the operational environment Through this research the authors seek to influence MARSOC s

organizational strategy to more effectively wage irregular warfare The final recommendations provide a possible path to MARSOC for overcoming institutional challenges inhibiting the employment of relational maneuver in irregular warfare I Introduction II Relational Maneuver An Analytical Framework III Case Study Vietnam An Ineffective Evolution Toward Relational Maneuver IV El Salvador Not A Military War V Afghanistan Still A Question Mark VI SOF Advantages Introduction VII Organizational Design and MARSOC VIII Synthesis Analysis And Recommendations IX Discoveries Disclaimers and Further Research 2019 U S Intelligence Community Worldwide Threat Assessment The evidence suggests that the root of the U S military s strategic failures in irregular warfare lies in ineffective implementation of what modern strategist Edward Luttwak defines as relational maneuver Relational maneuver is a style of warfare that focuses on studying a threat to identify and exploit vulnerabilities to achieve strategic success This style of warfare requires a deep understanding of the threat and operational environment and the adaptation to exploit threat vulnerabilities In irregular warfare adaptation and exploitation must occur through both political and traditional military competition The U S military including SOF disproportionately applies maneuver through traditional military violence rather than political competition This study draws upon the strategic context outlined by the 2018 NDS the projected prevalence of future irregular warfare credible research on irregular warfare historical U S military lessons and internal organizational analysis to produce implementable recommendations to the Marine Special Operations Command MARSOC These recommendations are intended to enhance MARSOC s ability to wage irregular warfare and influence successful strategic outcomes in line with the 2018 NDS Three intermediate arguments underpin the final recommendations First irregular warfare is fundamentally more complex dynamic and uncertain than doctrinally defined traditional warfare due to political competition that occurs at every level of warfare Second U S military strategic success in irregular warfare requires applying relational maneuver which enables the necessary understanding and adaptation to identify and exploit threat vulnerabilities in uncertain operational environments Third SOF and MARSOC need to better apply relational maneuver through both political competition and military violence [Jane's Navy International](#) ,2005 **The American Legion** ,2006 [Congressional Record](#) United States.
