Imagine a giant box is delivered to your front doorstep with your name on it. What's inside and what happens when you open it?

Write a short story about what it might be like if you woke up one morning with a mermaid tail.

Write about what would it be like if you had an alligator as a pet.

If you were in charge of the whole world, what would you do to make the world a happier place?

Imagine that dogs take over the world. What do they make the humans do?

Write about 3 places you would like to travel someday. What do these three places have in common?

Write a poem that starts with the word "if".

How do you feel when someone takes something of yours without asking? What is a good way to deal with it when that happens?

Imagine you walk out your front door one morning and it is raining popcorn! What do you do?

**Maria Montessori's Erdkinder** Ela Eckert, 2022-10-01 Consistently based on the developmental needs in adolescence, Maria Montessori designed the concept of a Center for Study and Work in the Countryside for students aged 12-18 years, which gives young people the opportunity to learn about the basic structures of production, trade, and services in a manageable, transparent, and at the same time protected setting through Practice Theory-linked experiences. The book presents the basics of Maria Montessori's concept and gives, through reports with practitioners and interviews with Montessori experts, insights into authentic implementations of the Farm school concept and thus into a learning arrangement that allows young people a high degree of responsibility and participation and strengthens their commitment to a sustainable approach to natural resources and a peaceful way of living. The book also addresses schools without a Farm school practice and shows ways of approaching crucial components of this authentic and highly topical concept.
