Issues in Language Programme Evaluation in the 1990s Sarinee Anivan, 1991

pedagogical or policy dimensions of education and linguistic diversity failing to address social and political issues This volume argues that these are central to understanding the significance and consequence both of educational policy and practices in multilingual settings and language policy and practices as they manifest themselves through education Specifically we argue that language practices in these settings reveal struggles over the establishment of authority and legitimacy they can be interpreted as voices expressing a variety of social positions and interests to the resources distributed through educational institutions and processes They reveal what is at stake and for whom in choices made at state institutional school and other levels regarding both language of instruction and assessment as well as regarding language teaching and learning and the evaluation of linguistic proficiency **The Massachusetts register** ,1992-07-31 **Current Index to Journals in Education** ,2002 **Encyclopedia of Language & Linguistics** E.
