**The Specter and the Speculative** Mae G. Henderson, Jeanne Scheper, Gene Melton, 2024-05-31 The Specter and the Speculative Afterlives and Archives in the African Diaspora engages in a critical conversation about how historical subjects and historical texts within the African Diaspora are re-fashioned, re-animated, and re-articulated as well as parodied, nostalgized, and defamiliarized to establish an afterlife for African Atlantic identities and narratives. These essays focus on transnational, transdisciplinary, and transhistorical sites of memory and haunting textual, visual, and embodied performances in order to examine how these living archives circulate and imagine anew the meanings of prior narratives liberated from their original context. Individual essays examine how historical and literary performances in addition to film, drama, music, dance, and material culture thus revitalized, transcend, and speak across temporal and spatial boundaries not only to reinstate traditional meanings but also to motivate fresh commentary and critique. Emergent and established scholars representing diverse disciplines and fields of interest specifically engage under-explored themes related to afterlives, archives, and haunting.

The Critical Response to Ralph Ellison Robert Butler, 2000-04-30 Ralph Ellison's literary career began in 1937 with the publication of his review of Waters' *Edward Turpin's These Low Grounds*. Over the next 15 years he published 10 short stories and 37 essays on literary, cultural, and political topics. But when *Invisible Man* was published in 1952, Ellison received immediate acclaim from a wide variety of critics, scholars, and novelists. While his novel emerged as a major work of African American literature, it also engaged the European literary tradition and influenced an entire generation of post-World War II writers. Ellison is now one of the most studied African American writers, and the posthumous publication of his second novel, *Juneteenth*, in 1999 has drawn even more attention to his contribution. Through previously published reviews and essays and original material, this book charts the response to Ellison's writings. While the bulk of the volume focuses on *Invisible Man*, the book also includes sections devoted to Ellison's short fiction and nonfiction, as well as posthumous estimates of his work. A chronology highlights the most important events in his life and career, while an introductory essay overviews the broad trends in Ellison scholarship. The volume concludes with a selected bibliography of primary and secondary works.
