

Why Digital Matters

Making learning convenient and flexible for students means empowering them to study when and how they want. With **84%** of college students preferring a blended learning environment, and **78%** agreeing that technology contributes to successful learning,¹ students clearly want to study online and on their mobile phones. Research shows they're right.

¹ EDUCATION SURVEY 2016

WEBASSIGN From Cengage

Now including news-focused videos, test banks, labs, simulation questions, projects, and hundreds of new questions with new interactive homework help in the course, WebAssign is the complete teaching toolbox for Statistics.

Simulation Questions by JMP – Engage with Real Data

Have your students understand concepts by utilizing real data. Students must discover the answer to guided questions by interacting with a simulation of real data in our JMP Interactive applet within WebAssign.

Concept Questions – Help Students Ace the Test!

Help students who ace the homework to also ace the test. These Concept Questions provide a new way of engaging with non-computational questions. Students enter a free response before they choose a multiple-choice answer. Separate knowledge from good guessing by closing the gap between homework and test preparedness.

Labs – Real Data Sets, Real Software

Students can perform real statistical analysis in class or online with pre-made and chapter-specific Stats Labs. Require students to use the instructor-selected data analysis tool to analyze a real data set – pulling together knowledge learned from that chapter and previous material to facilitate whole-picture learning.

Project Milestones – Bring It All Together through Hands-On Learning

Allow one place for students to ideate, collaborate, and submit a longer-term project. The four milestones are:

1. Research Design
2. Gather Data
3. Analyze Data
4. Present Results

Stats in Practice Video Questions – Take Students Outside the Classroom

Show students how Statistics applies in the real world. Short and current news videos introduce each chapter. Each video is accompanied by multiple-choice and discussion questions, so that students can understand real-world context of what they're learning and stay engaged throughout the whole chapter.
