**Achieving Evidence-Based Practice** Susan Hamer,Gill Collinson,2014-12-10 This title is directed primarily towards health care professionals outside of the United States This book provides a practical introduction to and overview of the development and implementation of evidence based practice It focuses on how to look for and appraise the available evidence how to apply the evidence using a variety of approaches and in different organisational contexts and how to understand different dimensions of personal and organisational change and its ethical components Numerous examples from practice and case studies clarify theory Very readable writing style and user friendly format with checklists of key issues Opportunities for reflective learning Update on current policy and regulatory frameworks Role of clinical governance in evidence based practice considered

**Doing Educational Research** Marit Honerød Hoveid,Lucian Ciolan,Angelika Paseka,Sofia Marques da Silva,2019-06-10 Every educational research project has challenges and obstacles that need to be managed and overcome This book uses real case

studies employing a wide range of research methodologies and drawn from educational contexts across Europe to explore these challenges offering flexible and universal guidance that you can apply to your own research Published in partnership with EERA this book is Realistic and informed It explores a range of perspectives on educational research from planning to data collection to international collaboration Challenging It integrates a holistic and critical view on the process of educational research Culturally aware It covers a variety of research projects from different countries and encourages you to challenge dominant perspectives in education This is the first major English language textbook for postgraduate and postdoctoral education researchers that represents and explores the range of research traditions that exist throughout Europe and what they mean in practice

*Using Research For Effective Health Promotion* Oliver, Sandy, Peersman, Greet, 2001-08-01 Well before evidence based practice became fashionable beyond clinical medicine the team at SSRU was telling us what we ought to already know that some interventions work better than others and that that some well meaning attempts at health promotion just like medicine and surgery may do harm This book is a must for policy makers and practitioners who want to make a real difference and understand how research evidence can inform their practice The book will also be an important tool for researchers who will increasingly be using the tools of systematic review if they want to inform and influence those who deliver services Helen Roberts Professor of Child Health City University This book bridges the gap between research and practice in health promotion It advances evidence based health promotion by illustrating how service providers and researchers can change their working practices to benefit the public It addresses the need for health promotion services to be grounded in empirical research and for research to focus on issues important to those delivering as well as those receiving the services *Using Research for Effective Health Promotion* advances the debate about the relative values of qualitative and experimental research in health promotion and encourages an increased participation of service users in the development and evaluation of services It provides health promotion specialists with time saving tools to draw upon research quickly and critically and is an important resource for students and professionals in fields such as public health nursing education social work and voluntary services

**Handbook for conducting assessments of barriers to effective coverage with health services** Theadora Swift KOLLER, 2024-06-25 According to the most recent data available 4.5 billion people were not fully covered by essential health services in their countries in 2021 Likewise in 2019 the total population experiencing financial hardship was estimated to be 2 billion people To scale up action to leave no one behind WHO's Fourteenth General Programme of Work 2025-2028 GPW 14 has an explicit and strong commitment to equity In support of this WHO has released a handbook with methods for the identification of barriers to effective coverage with health services The 8 module handbook applies mixed method research approaches grounded in the Tanahashi framework for effective coverage to focus on barriers experienced by potential users and non users of health services The handbook facilitates the capturing of evidence on the interface between the population and the services The handbook has four

objectives 1 To orient national authorities and partners on key concepts definitions frameworks and principles relevant to barriers assessments 2 To build the capacity of national authorities and partners to design a research plan and apply diverse methods e g informant interviews literature reviews quantitative analysis and focus groups in barriers assessments 3 To provide guidance for reporting on barrier assessment findings in a clear and actionable manner and convening key stakeholders to deliberate next steps 4 To adapt the methods for humanitarian contexts accounting for the need for differentiated approaches

*Tandon's Textbook of Cardiology* Dorairaj Prabhakaran,Raman Krishna Kumar,Nitish Naik,2019-01-17 An authoritative comprehensive and accessible cardiology textbook that caters to the needs of trainees and practicing cardiologists Cardiovascular disease is now the largest contributor to global mortality Low and middle income countries Lmics presently bear the brunt of this global epidemic accounting for over three quarters of cardiovascular deaths and 90% of these deaths under 70 years of age The experience and expertise of health professionals in these countries will therefore be the principal determinant of global success in countering and curbing the global cardiovascular epidemic in the coming decades This book covers the fundamentals of cardiology in depth to provide conceptual clarity and delves into specific cardiovascular disorders with detailed descriptions that range from aetiology and pathophysiology to evidence informed approaches to diagnosis and management It does all of this by blending contextual relevance with uncompromising academic rigor
