

All Fives Domino Rules

All Fives is considered by many to be one of the very best domino games. The goal of the is not just to empty you hand, but to score the most points by repeatedly making the open ends of the domino layout add up to multiples of five.

Number Of Players: 2 to 4

Domino Set Required: Double-six Set

Setup: After shuffling the domino cards, each player draws a single card to determine who goes first. The player with the highest amount of points on the card drawn gets to go first.

These cards are then reshuffled. Each player then draws cards to make up their hand. The number of cards drawn depends on the number of players:

- 2 players draw 7 cards each
- 3 players draw 5 cards each
- 4 players draw 5 cards each

The rest of the cards make up the boneyard which players will draw additional cards from as the need arises. Place the boneyard in a location that is easily accessible by all players.

Gameplay: The first player places the first domino card down with the number side face up. The first card played can be of any value. However, the first double card played, whether it is the initial card or not, can be played off of on all four edges. This initial double is known as the "spinner". All subsequent doubles can only connect on two edges. At any time there may only be 2, 3, or 4 open ends.

Play proceeds to the left (clockwise). Each player adds a domino card to an open end of the layout if he/she can. If a player is unable to play a card, he/she must draw cards from the boneyard until he/she can make a move. If there are no dominoes left, then the player must pass.

The object of the game is to make to make the open ends of the layout add up to 5 or a multiple of five (5, 10, 15, 20, etc.). The player who places a card that results in the open ends of the layout adding up to a multiple of 5 receives that number of points.
