03. CONSTRUCTION

TOOLS AND MATERIALS

Glue or tape
 Any type of glue or tape will hold the mask together, but a glue stick or double-stick tape is the easiest and fastest material to use. If the glue will also work for the string, use the widest and most adhesive type.

ASSEMBLING THE MASK

1. Take out all of the template pieces.
2. Make the valley and mountain folds in preparation. Push along the edge of each fold to make sure that it is well defined and easy to crease. The deeper the fold, the better the finished mask will look.
3. Bring the sides of each valley fold two simple pieces together edge with a corresponding number. For example, edge number 10 goes together with another edge number 10.
4. In each pair of mountain ridges, one part will have a gluing site with one end cut. The gluing site will always go on the inside of the mask. Test first just before you apply the glue or tape to the site. Once you are happy with how the parts fit together, apply glue to the outer surface of the fold and bring the two edges together. Apply pressure to the joint and the glue has enough to hold on its own.

GLUE OR TAPE

Start with the nose.
 Move up the nose to eye.
 Top of head.
 Back of head.

WEARABLE

Once you have had the mask, make the headband and tape it to the inside of the mask, using the following instructions:

1. Use the three sections of the headband in a zig-zag fashion on each side. We have shown three examples for each side. Then wrap the band around your head overlapping the two loose ends.
2. Tape or glue the first overlap so that the band is snug but not tight on your head.
3. Slip the band off your head and tape to the front of the band the section without a valley to the front of the inside of the mask. You may need to play around with the position of the band to get the mask to sit on your head in the way that you want.
4. Tape the three straight sides to the inside of the mask so that the band is placed

VALLEY AND MOUNTAIN RIDGE

To create the mask, you'll need to use two types of simple paper folds:

Valley fold represented by a dashed line

Mountain fold represented by a dashed line with dots
