

Project Management Interview Questions and Answers

During the **project management interview** you will be asked interview questions that focus on your training and experience with the successful delivery of different projects.

You can also expect behavioral or competency-based questions that explore essential project manager skills such as team building and team management, planning and organizing, negotiation, problem-solving, leadership and adaptability.

Let's start with the likely project management interview questions that explore your experience on project delivery.

Tell us about your experience in managing different projects and how this can contribute to our position.

It is important to structure your interview answer because this is a multi-layered and fairly complex question. Start by explaining how you will answer the question. This keeps your answer on track and to the point.

"I will begin by giving you a short description of my last three projects. I will then detail the skills and abilities I developed as a result of each project and then demonstrate the value of these skills to this position."

You can then go on to provide a brief but concise summary of each project.

"I was the project manager for the XYZ project and this involved ..."

Then describe the skills you acquired during the project.

"I encountered a number of difficulties on this project that required an innovative approach. I used group problem solving sessions as one of these approaches. This worked well because it helped each team member to clarify their particular project role and responsibility and we were able to develop plans and realistic schedules that the whole project team contributed to ..."

Demonstrate how these skills will benefit the position and company.

"Projects now are faced with tighter budgets and fewer resources. This approach maximizes the available resources and keeps everyone focused and motivated for the duration of the project..."

Describe how you recently managed a diverse project team towards a common goal
