Pancoast,2015-07-11 Excerpt from An Introduction to English Literature Fifteen years ago Mr Henry Holt asked me to arrange a series of representative selections from English literature in chronological order and to connect them with such biographical and historical matter as might be found necessary for an understanding of them and of their relation to national and literary history The result of this request was a book Representative English Literature which appeared in 1892 In this book owing to the large proportion of space taken up by selections the historical sketch was necessarily very brief and a few years later at Mr Holt s suggestion I prepared a second book An Introduction to English Literature based on the first in which the selections were omitted and the historical outline revised and considerably expanded Two years later this second book enlarged by the addition of further biographical and other matter In the present book the subject is treated with still greater fulness but upon the same general plan About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *An Introduction to English Literature* J. Typical Forms of English Literature Alfred H. Upham, 2015-07-09 Excerpt from *The Typical Forms of English Literature: An Introduction to the Historical and Critical Study of English Literature for College Classes*. This book, derived from several years of experience with college classes, is intended primarily to be used with the now popular introductory courses in literature that approach their subject by way of representative types or literary forms. It undertakes to provide for a number of these typical forms a somewhat extended account of their development as phases of art; a briefer statement of their accepted standards of technique; a suggestive list of topics for study; and a bibliography of collections and critical discussions. It is not intended to supplant the reading and interpretation of literary documents but rather to supply a basis of understanding and conviction upon which such interpretations can be made more intelligently. Hitherto such material has been brought to the attention of students by means of lectures or through assigned readings in various books of reference. But freshmen and sophomores in college are not skilled in note taking and the reference reading they do is often poorly digested. It should be an immense advantage to have in their hands a readable syllabus of this fundamental information. Just how the book may be employed most effectively must be determined by individual instructors. Some will omit certain types and chapters as the time allotted to the course may require. The author himself presents the drama in a separate course.
