

## Main explorer view

The visionCATS main window contains at least one tabbed document – the file explorer. All stored data in the software database can be accessed from the file explorer. In many ways, the file explorer works like the Windows Explorer, with a folder structure containing files and subfolders. By default, a "Home" folder is created with some sample files in it.

### 1. Contents of the current folder

- Lists the files in the currently selected folder
- Aside from the location and name, the **File Types** and **File Status** are displayed for each file, as well as other important informations
- Select a file to display its **Preview view**
- Right-click on a file or use the **Main Toolbar** to access to the available **File Actions**
- Double-click to open a file or a folder
- Drag/drop a file or a folder to move it

### 2. Navigation

- Displays the current folder path
- Navigate in the folder structure by clicking on items in the folder path

### 3. History

- View the history of opened folders
- Go back/forward in this history
