Limits, Series, and Fractional Part Integrals Ovidiu Furdui, 2013-05-30 This book features challenging problems of classical analysis that invite the reader to explore a host of strategies and tools used for solving problems of modern topics in real analysis This volume offers an unusual collection of problems many of them original specializing in three topics of mathematical analysis limits series and fractional part integrals The work is divided into three parts each containing a chapter dealing with a particular problem type as well as a very short section of hints to select problems The first chapter collects problems on limits of special sequences and Riemann integrals the second chapter focuses on the calculation of fractional part integrals with a special section called Quickies which contains problems that have had unexpected succinct solutions The final chapter offers the reader an assortment of problems with a flavor towards the computational aspects of infinite series and special products many of which are new to the literature Each chapter contains a section of difficult problems which are motivated by other problems in the book These Open Problems may be considered research projects for students who are studying advanced calculus and which are intended to stimulate creativity and the discovery of new and original methods for proving known results and establishing new ones This stimulating collection of problems is intended for undergraduate students with a strong background in analysis graduate students in mathematics physics and engineering researchers and anyone who works on topics at the crossroad between pure and applied mathematics Moreover the level of problems is appropriate for students involved in the Putnam competition and other high level mathematical contests MUS - Mathematimus - Hyperelliptical Geometry Stenio Musich, 2024-03-25 M U S Mathematical Uniform Space is a new number of π representing the reality of the Universe in which we live With this number we created a new geometry Hyperelliptical Geometry which will provide the unification of physics thus uniting the Theory of Relativity and Quantum Theory A new geometry for a new Mathematics and a new Physics ISBN 978 65 00 98107 0 **Sharpening Mathematical Analysis Skills** Alina Sîntămărian, Ovidiu Furdui, 2021-10-25 This book gathers together a novel collection of problems in mathematical analysis that are challenging and worth studying They cover most of the classical topics of a course in mathematical analysis and include challenges presented with an increasing level of difficulty Problems are designed to encourage creativity and some of them were especially crafted to lead to open problems which might be of interest for students seeking motivation to get a start in research The sets of problems are comprised in Part I The exercises are arranged on topics many of them being preceded by supporting theory Content starts with limits series of real numbers and power series extending to derivatives and their applications partial derivatives and implicit functions Difficult problems have been structured in parts helping the reader to find a solution Challenges and open problems are scattered throughout the text being an invitation to discover new original methods for proving known results and establishing new ones The final two chapters offer ambitious readers splendid problems and two new proofs of a famous quadratic series involving harmonic

numbers In Part II the reader will find solutions to the proposed exercises Undergraduate students in mathematics physics and engineering seeking to strengthen their skills in analysis will most benefit from this work along with instructors involved in math contests individuals who want to enrich and test their knowledge in analysis and anyone willing to explore the standard topics of mathematical analysis in ways that aren't commonly seen in regular textbooks

Algebraic Curves and Riemann Surfaces for Undergraduates Anil Nerode, Noam Greenberg, 2023-01-16 The theory relating algebraic curves and Riemann surfaces exhibits the unity of mathematics topology complex analysis algebra and geometry all interact in a deep way This textbook offers an elementary introduction to this beautiful theory for an undergraduate audience At the heart of the subject is the theory of elliptic functions and elliptic curves A complex torus or donut is both an abelian group and a Riemann surface It is obtained by identifying points on the complex plane At the same time it can be viewed as a complex algebraic curve with addition of points given by a geometric chord and tangent method This book carefully develops all of the tools necessary to make sense of this isomorphism The exposition is kept as elementary as possible and frequently draws on familiar notions in calculus and algebra to motivate new concepts Based on a capstone course given to senior undergraduates this book is intended as a textbook for courses at this level and includes a large number of class tested exercises The prerequisites for using the book are familiarity with abstract algebra calculus and analysis as covered in standard undergraduate courses

Scientific Computing with MATLAB Dingyu Xue, YangQuan Chen, 2018-09-03 Scientific Computing with MATLAB Second Edition improves students ability to tackle mathematical problems It helps students understand the mathematical background and find reliable and accurate solutions to mathematical problems with the use of MATLAB avoiding the tedious and complex technical details of mathematics This edition retains the structure of its predecessor while expanding and updating the content of each chapter The book bridges the gap between problems and solutions through well grouped topics and clear MATLAB example scripts and reproducible MATLAB generated plots Students can effortlessly experiment with the scripts for a deep hands on exploration Each chapter also includes a set of problems to strengthen understanding of the material

Assistive Technologies and Environmental Interventions in Healthcare Lynn Gitlow, Kathleen Flecky, 2019-08-08 Providing a holistic and client centered approach Assistive Technologies and Environmental Interventions in Healthcare explores the individual's needs within the environment examines the relationship between disability and a variety of traditional and cutting edge technologies and presents a humanistic discussion of Technology Environment Intervention TEI Written by a multidisciplinary team of authors this text introduces readers to a variety of conceptual practice models and the clinical reasoning perspectives It also provides insight into how designers go about solving human tech problems discusses best practices for both face to face and virtual teams and looks at the psychological sociocultural and cognitive factors behind the development and provision of assistive technologies Examines a wide range of technologies and environmental interventions Demonstrates how a better
