Advancing Sustainable Development Goals With Educational Technology Mobo, Froilan Delute, 2024-12-11 Educational technology plays a vital role in advancing the Sustainable Development Goals (SDGs) by transforming how knowledge is accessed, shared, and applied. By leveraging digital tools and innovative teaching methods, educational technology can promote quality education, reduce inequalities, and support lifelong learning opportunities for all. It enables scalable and inclusive solutions that address global challenges, fostering a more informed and empowered society. As the world becomes increasingly interconnected, harnessing the potential of educational technology is crucial for achieving the SDGs and creating a more equitable and sustainable future. Advancing Sustainable Development Goals With Educational Technology explores theoretical insights, practical applications, case studies, and best practices illustrating how educational technology can contribute to the global effort of achieving the SDGs. It provides a comprehensive understanding of the intersection between educational technology and each of the 17 SDGs, highlighting innovative approaches, success stories, and lessons learned. Covering topics such as artificial intelligence (AI), higher education institutions, and global partnerships, this book is an excellent resource for educators, educational administrators, policymakers, government officials, researchers, academicians, non-governmental organizations, educational technology developers, and innovators, and more. Hispanic Engineer & IT, 2008 Hispanic Engineer Information Technology is a publication devoted to science and technology and to promoting opportunities in those fields for Hispanic Americans. **The Brain-Based Classroom** Kieran O'Mahony, 2020-12-29 The Brain Based Classroom translates findings from educational neuroscience into a new paradigm of practices suitable for any teacher. The human brain is a site of spectacular capacity for joy, motivation, and personal satisfaction, but how can educators harness its potential to help children reach truly fulfilling goals? Using this innovative collection of brain-centric strategies, teachers can transform their classrooms into deep learning spaces that support their students through self-regulation and mindset shifts. These fresh insights will help teachers resolve classroom management issues, prevent crises and disruptive behaviors, and center social-emotional learning and restorative practices. **Educating Gifted Students in Middle School** Susan Rakow, 2021-09-30 Educating Gifted Students in Middle School: A Practical Guide 3rd ed. helps educators with the challenging task of understanding and meeting the needs of gifted students in middle school. This revised and updated third edition provides a rationale and framework that middle schools can use to fill the service gap for gifted and advanced learners. It addresses the needs of learners from diverse backgrounds, shows how to implement effective program models, identifies best practices for the classroom, shares research-based curriculum models. Topics addressed include school organization, instructional strategies in the basic subject areas, cocurricular and summer programs, the missing link of executive function skills, and counseling at-risk gifted learners. Educating Gifted Students in Middle School focuses on creative, practical, and realistic school solutions that create a vital and responsive community for all students. *District Leadership for Racial*

*Equity* Larkin Willis, Desiree Carver-Thomas, Linda Darling-Hammond, 2025-07-30 District Leadership for Racial Equity shows how transformative changes can occur across diverse districts when leaders take purposeful action in support of racial equity. Developed as part of the Racial Equity Leadership Network initiative led by Southern Education Foundation, this collection provides an opportunity for leaders to learn from district reform efforts that have reduced disparities and improved outcomes for students of color across unique contexts. The cases presented acknowledge the challenges leaders face but they also demonstrate that change is possible when leaders build will and capacity to support successful student outcomes. It examines the cases of racial equity leaders across four districts who have developed approaches that create new opportunities and outcomes for students who have been historically marginalized. District Leadership for Racial Equity is an essential resource for emerging leaders, leader practitioners, and policymakers who are committed to reducing disparities and improving outcomes for all students, especially those who are marginalized and underserved in our schools and society.
