Time and Revolution Stephen E. Hanson, 2000-11-09 Stephen Hanson traces the influence of the Marxist conception of time in Soviet politics from Lenin to Gorbachev He argues that the history of Marxism and Leninism reveals an unsuccessful revolutionary effort to reorder the human relationship with time and that this reorganization had a direct impact on the design of the central political socioeconomic and cultural institutions of the Soviet Union from 1917 to 1991 According to Hanson westerners tend to envision time as both rational and inexorable In a system in which time is money the clock dominates workers Marx however believed that communist workers would be freed of the artificial distinction between leisure time and work time As a result they would be able to surpass capitalist production levels and ultimately control time itself Hanson reveals the distinctive imprint of this philosophy on the formation and development of Soviet institutions arguing that the breakdown of Gorbachev's perestroika and the resulting collapse of the Soviet Union demonstrate the failure of the idea

Russia's Revolution from Above 1985-2000 Gordon M. Hahn, Relying on a wealth of detailed institutional policy and elite information Hahn presents a magisterial study that fills a significant void in our understanding of USSR's destruction While readers may at times feel overwhelmed readers are presented with a conceptual approach that can be useful for appreciating ongoing institutional changes and often subtle elite maneuverings in the post Soviet era John P Willerton University of Arizona This is a big book in all respects weighty both in size and scholarship The core is a meticulous analysis of the perestroika period of the Soviet Union 1985-91 Followed by a concluding general chapter that applies the earlier analysis to post Communist Russia 1992-2000 The work is based on years of painstaking analysis considerable archival research and numerous interviews The Russian Review This is an important book with a number of substantive strengths Slavic Review The fall of the Soviet communist regime in 1991 offers a challenging contrast to other instances of democratic transition and change in the last decades of the twentieth century The 1991 revolution was neither a peaceful revolution from below as occurred in Czechoslovakia nor a negotiated transition to democracy like those in Poland Hungary or Latin America It was not primarily the result of social modernization the rise of a new middle class or of national liberation movements in the non Russian union

republics Instead as Gordon Hahn argues the Russian transformation was a bureaucrat led state based revolution managed by a group of Communist Party functionaries who won control over the Russian Republic RSFSR in the mid 1990s Hahn describes how opportunistic Party and state officials led by Boris Yeltsin defected from the Gorbachev camp and proceeded in 1990 91 to dismantle the institutions that bound state and party These revolutionaries from above seized control of political economic natural and human resources and then separated the party apparatus from state institutions on Russian Republic territory With the failed August 1991 hard line coup Yeltsin banned the Communist Party and decreed that all Union state organs including the KGB and military were under RSFSR control In Hahn s account this mode of revolutionary change from above explains the troubled development of democracy in Russia and the former Soviet republics Hahn shows how limited mobilization of the masses stunted the development of civil societies and the formation of political parties and trade unions with real grass roots The result is a weak society unable to nudge the state to concentrate on institutional reforms society needs for the development of a free polity and economy Russia s Revolution from Above goes far in correcting the historical record and reconceptualizing the Soviet transformation It should be read by historians economists political scientists and Russia area scholars Gordon M Hahn is visiting scholar at the Hoover Institution Stanford University His articles on Soviet and Russian politics have appeared in *Europe Asia Studies* *Problems of Post Communism* *Russian Review* and *Russian History* *Histoire Russe* Prentice Hall World Explorer: Eastern Hemisphere Heidi Hayes Jacobs, Brenda Randolph, Michal LeVasseur, Yvonne S. Gentzler, 2003 **Russia, 1855-1991** Peter Oxley, 2001 Written for the AS A2 examinations this book focuses on exam board selected topics It covers almost 150 years of Russian history from Alexander II through Glasnost to the modern times It deals the period 1895 1941 with separate chapters on the Russian Revolution Lenin and Stalin Advanced Environmental Analysis Chaudhery Mustansar Hussain, Boris Kharisov, 2016-11-09 Environmental analysis techniques have advanced due to the use of nanotechnologies in improving the detection sensitivity and miniaturization of the devices in analytical procedures These allow for developments such as increases in analyte concentration the removal of interfering species and improvements in the detection limits Bridging a gap in the literature this book uniquely brings together state of the art research in the applications of novel nanomaterials to each of the classical components of environmental analysis namely sample preparation and extraction separation and identification by spectroscopic techniques Special attention is paid to those approaches that are considered greener and reduce the cost of the analysis process both in terms of chemicals and time consumption Advanced undergraduates graduates and researchers at the forefront of environmental science and engineering will find this book a good source of information It will also help regulators decision makers surveillance agencies and the organizations assessing the impact of pollutants on the environment Electrical World ,1885 **The New York Times Index** ,1917 *Western Electrician* ,1902 **Scientific American** ,1873 **World Studies: Eastern Hemisphere** Heidi Hayes Jacobs, Michal L.
