Belleville Gerry Boyce, 2009-02-15 Winner of the Ontario Historical Society s Fred Landon Award for Best Regional History Belleville on the shores of the Bay of Quinte traces its beginnings to the arrival of the United Empire Loyalists For 30 years the centre of the present city was reserved for the Mississauga First Nation White settlers who built dwellings and businesses on the land paid annual rent to them until the land was surrendered and a town plot laid out in 1816 The new town quickly became an important lumbering farming and manufacturing centre Early influences include the Marmora Iron Works of the 1820s the first railway in 1856 Ontario s first gold rush in 1866 and prominent citizens such as noted pioneer author Susanna Moodie and Sir Mackenzie Bowell Canada s fifth prime minister This is a personal history of Belleville based on Gerry Boyce s half century of research Embedded throughout are interesting and obscure stories about scandals murders and hauntings the underbelly of the growth of a city

Herd Register American Jersey Cattle Club, 1930 Deutsches Wörterbuch Jacob Grimm, 1889 Herd Register of Jersey Cattle , 1930 **Liber Mahameleth** Jacques Sesiano, 2014-03-18 The Liber mahameleth is a work in Latin written in the mid 12th century based mainly on Arabic sources from Islamic Spain It is now our principal source on mathematics in

Islamic Spain at that time There are few extant Arabic texts and no one is as complete as the LM It is also the second largest mathematical work from the Latin Middle Ages the other is by Fibonacci some 50 years later Since the three main manuscripts preserving it are incomplete and there are many scribal errors a reliable Latin text has been established which reports in notes the various readings of the manuscripts and the errors in them This is how a so called critical edition is made This edition of the Latin text is preceded by General Introduction describing the various manuscripts the content of the work and what we know about its author Part Two of the volume is a translation of the text and ends with a glossary of Latin terms The glossary will be of great importance for the knowledge of Latin scientific terms from that time since there is no other mathematical text of this size from the 12th century Part Three begins with a short introduction and then analyzes all the problems from the text with a summary of the mathematical methods involved in each chapter The commentary is a companion to the translation and explains the author s solving methods

Concordance to the French Poetry and Prose of John Gower R. F. Yeager, Mark West, Robin L. Hinson, 2012-01-01 That the poet John Gower was a major literary figure in England at the close of the fourteenth century is no longer in question Scholarly attention paid to him and to his work over the past twenty five years has redeemed him from an undeserved obscurity imposed by the preceding two hundred The facts of his life and career are now documented and recent critical assessment has placed his achievement most accurately alongside Chaucer s Langland s and the Gawain poet s Unique among his contemporaries all of whom undoubtedly read and used French in some measure Gower alone has left us a significant body of verse and prose in Anglo Norman chiefly the twelve stanza poem *Mirour de l Omme* the *Cinkante Balades* and the *Traiti pour les amantz marietz* We are offered in this concordance of his Anglo Norman work a unique opportunity to view a poetic language as it was written and read in England until Gower s death in 1408 and beyond
