Active Credit Portfolio Management In Practice:

Active Credit Portfolio Management in Practice Jeffrey R. Bohn, Roger M. Stein, 2009-04-01 State of the art techniques and tools needed to facilitate effective credit portfolio management and robust quantitative credit analysis Filled with in depth insights and expert advice Active Credit Portfolio Management in Practice serves as a comprehensive introduction to both the theory and real world practice of credit portfolio management The authors have written a text that is technical enough both in terms of background and implementation to cover what practitioners and researchers need for actually applying these types of risk management tools in large organizations but which at the same time avoids technical proofs in favor of real applications Throughout this book readers will be introduced to the theoretical foundations of this discipline and learn about structural reduced form and econometric models successfully used in the market today The book is full of hands on examples and anecdotes Theory is illustrated with practical application The authors Website provides additional software tools in the form of Excel spreadsheets Matlab code and S Plus code Each section of the book concludes with review questions designed to spark further discussion and reflection on the concepts presented

Credit Portfolio Management Michael Hünseler, 2013-07-30 Credit Portfolio Management is a topical text on approaches to the active management of credit risks The book is a valuable up to date guide for portfolio management practitioners Its content comprises of three main parts The framework for managing credit risks Active Credit Portfolio Management in practice and Hedging techniques and toolkits

Active Credit Portfolio Management Jochen Felsenheimer, Philip Gisdakis, Michael Zaiser, 2006-03-10 The introduction of the euro in 1999 marked the starting point of the development of a very liquid and heterogeneous EUR credit market which exceeds EUR 350bn with respect to outstanding corporate bonds As a result credit risk trading and credit portfolio management gained significantly in importance The book shows how to optimize manage and hedge liquid credit portfolios i e applying innovative derivative instruments Against the background of the highly complex structure of credit derivatives the book points out how to implement portfolio optimization concepts using credit relevant parameters and basic Markowitz or more sophisticated modified approaches e g Conditional Value at Risk Omega optimization to fulfill the special needs of an active credit portfolio management on a single name and on a portfolio basis taking default correlation within a credit risk model framework into account This includes appropriate strategies to analyze the impact from credit relevant newsflow macro and micro fundamental news rating actions etc As credits resemble equity linked instruments we also highlight how to implement debt equity strategies which are based on a modified Merton approach The book is obligatory for credit portfolio managers of funds and insurance companies as well as bank book managers credit traders in investment banks cross asset players in hedge funds and risk controllers
