Mathematics-I Dr. E. Gouthami,Dr. P. Aparna,Mr. S. Naresh Kumar,Ms. D. Sandhya Saraswathi,2025-11-25 Mathematics forms the backbone of science engineering and technology providing a precise language and powerful tools for modeling analysis and problem solving The subject Mathematics I is the foundation course for undergraduate students particularly in engineering science and technology programs where mathematical concepts play a crucial role in understanding and applying core technical subjects This book Mathematics I is the result of a collaborative effort by a team of experienced academicians and researchers from diverse institutions Each contributor brings domain expertise classroom experience and research insight ensuring that the content is academically rigorous pedagogically sound and aligned with current university curricula The multi author approach has enabled the integration of varied perspectives teaching methodologies and problem solving strategies enriching the overall quality of the book The primary objective of this book is to present fundamental

mathematical concepts such as calculus differential equations linear algebra and vector analysis in a clear systematic and student friendly manner Emphasis has been placed on conceptual clarity logical development and step by step explanations enabling learners to build strong analytical skills Numerous worked examples illustrative diagrams and graded exercises have been included to reinforce understanding and enhance problem solving ability This textbook is designed to meet the requirements of first year undergraduate students across engineering and science disciplines and is structured in accordance with Outcome Based Education OBE and NEP 2020 guidelines Care has been taken to balance theory with applications helping students appreciate the relevance of mathematical principles in real world engineering and scientific problems The authors sincerely hope that this book will serve as a valuable resource for students a dependable reference for teachers and a useful guide for self learners Constructive suggestions and feedback from readers are most welcome and will be gratefully acknowledged in future editions

**A TEXTBOOK OF ENGINEERING CHEMISTRY** SYAMALA SUNDAR DARA,2008 Any good text book particularly that in the fast changing fields such as engineering technology is not only expected to cater to the current curricular requirements of various institutions but also should provide a glimpse towards the latest developments in the concerned subject and the relevant disciplines It should guide the periodic review and updating of the curriculum
