Ubben, Larry W. Hughes, Cynthia J. Norris, 2007 This text is organized around the ELCC Standards and provides a bridge from the theory of school administration to the practical problem solving in which school principals and other leaders engage The

Principal is organized into four parts centered on the seven Educational Leadership Constituent Council ELCC Standards developed specifically for school leaders Each of the four major parts of the book is framed with one or two of the Standards as its major theme Now in its sixth edition this text continues to be based on research indicating linkages between educational leadership and productive schools especially in terms of outcomes for children It supports the understanding that formal leadership in schools is a complex multi faceted task that requires continual learning and that effective school leaders must be strong educators focused on the central issues of learning teaching and school improvement School leaders must also be moral agents and social advocates for the children and communities they serve while working with community stakeholders to create learning communities that value and care for others as individuals and as members of the educational community

How Chinese Learn Mathematics: Perspectives From Insiders Lianghuo Fan,Ngai-ying Wong,Jinfa Cai,Shiqi Li,2004-08-30 The book has been written by an international group of very active researchers and scholars who have a passion for the study of Chinese mathematics education It aims to provide readers with a comprehensive and updated picture of the teaching and learning of mathematics involving Chinese students from various perspectives including the ways in which Chinese students learn mathematics in classrooms schools and homes the influence of the cultural and social environment on Chinese students mathematics learning and the strengths and weaknesses of the ways in which Chinese learn mathematics Furthermore based on the relevant research findings the book explores the implications for mathematics education and offers sound suggestions for reform and improvement This book is a must for anyone who is interested in the teaching and learning of mathematics concerning Chinese learners
